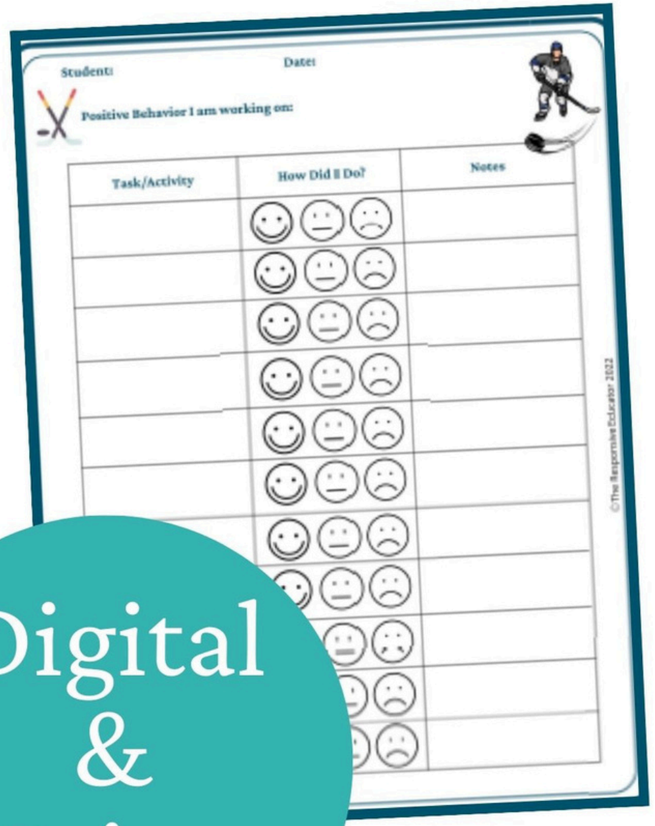
Smiley Face Behavior Chart - Editable



Digital & Print

Visual behavior support designed for younger students

SCROLL to take a look inside!

© TheResponsiveEducator

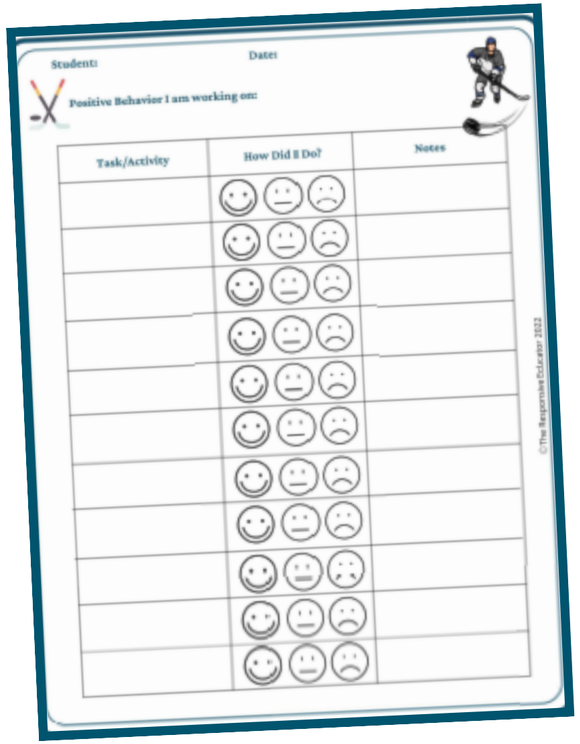
Why Do You Need a Visual Behavior Chart?

- Behavior varies across the day
- Younger students need concrete feedback
- Detailed tracking takes too much time
- Patterns can be hard to spot without clear visual data

© TheResponsiveEducator

How Does It Work?

- Organizes the day into manageable sections
- Teacher records behavior using simple smiley face visuals, adding notes as needed.
- Provides an at-a-glance picture of the student's day



© TheResponsiveEducator

Benefits for Students

- ★ Engaging Visuals for Younger Students
- ★ Simplifies Communication
- ★ Boosts Student Confidence
- ★ Helps Build Self-Regulation Skills

Benefits for Teachers

Simple and Effective

- Provides clear feedback that's easy for younger students to understand.

Flexible Formats

- Use digitally or print as needed—type student information once, then reuse daily.

Supports Daily Reflection

- Creates built-in opportunities for quick behavior check-ins without interrupting instruction.

Target Behavior Goal

Student Schedule
