FAIRYTALE FUNGI

The classic fairy tale toadstool is the red and white fly agaric.

The fruiting bodies of fungi often appear overnight. Fungi can have strange shapes and colors, they can form rings. In the past, people thought these were signs of magic.

Can you make a list of fungi with strange mystical names?

RETHINK THE WAY BURGLAR ALARMS ARE WORKING

A burglar alarm usually works by making a loud noise. The focus is on sending a message to the world that someone is committing a crime. But what if you could design an alarm that scares the burglar away? Preventing crimes is so much better! What if something smelly and creepy could pop up in front of a potential burglar?
