

CHRISTMAS REINDEER

Reindeer Detective:

Festive Challenge

Help Santa

Choose a problem that Santa may encounter when he delivers the gifts. Use reindeer as inspiration to solve the problem. Invent something cool to help Santa. Or invent something magical. It is after all the Festive season. And sometime in the future your idea may work. . .

For example, Santa could have strong antlers on the sack with present to deter thieves.

Reindeer have antlers that are very strong. Perhaps you could find a strong material like pipe cleaners and make a device to protect the gifts. Reindeer shed their antlers so perhaps your innovation could disappear when Santa wants to open the sack.
