

NEGATIVE NUMBERS TASK CARDS

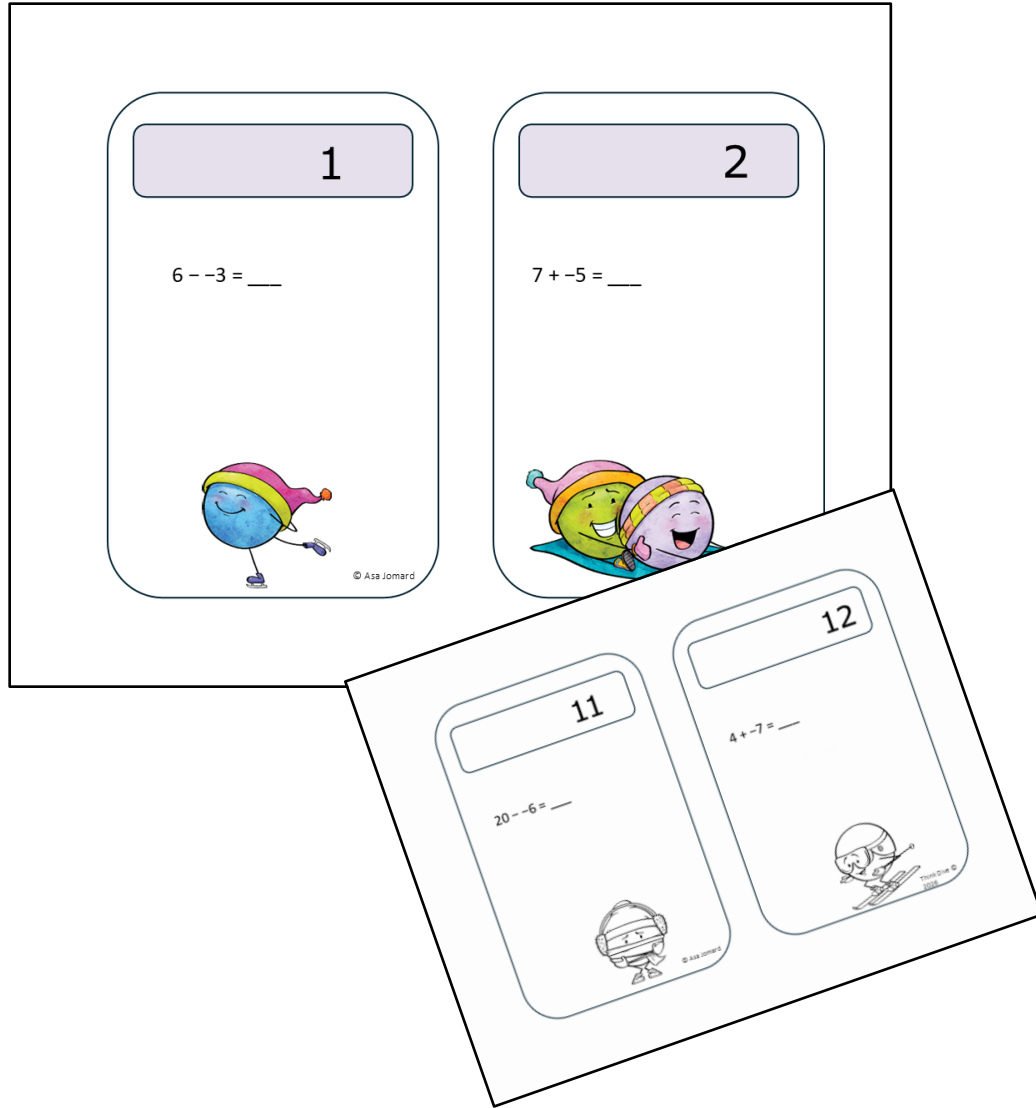

Adding & Subtracting

Dyslexia-Friendly Font

Color
Printer- Friendly

WHAT'S INCLUDED:

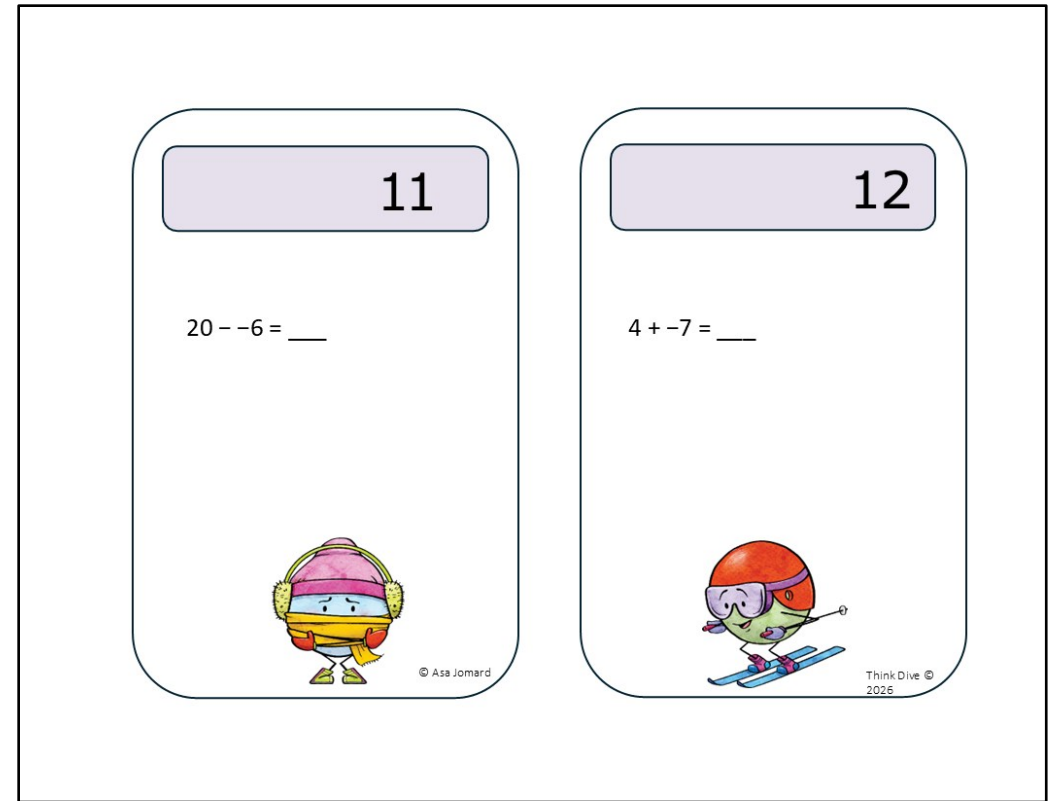

- 24 Task Cards Color & 24 Task Cards Printer-Friendly
- Answers & Recording Sheet

Skills:

- Adding negative numbers
- Subtracting negative numbers

Ways to Use

- **Scoot Game** - Students rotate from desk to desk solving problems
- Math centers and stations
- Early finisher activities
- Review and practice
- Assessment preparation
- Small group instruction

EXPLORE ALGEBRAIC EXPRESSIONS

ALGEBRAIC EXPRESSIONS: CHALLENGE - 1

Name: _____

You have a secret number of apples. Let's call it X . Your friend gives you 5 more apples, and then you eat 2.

The Challenge:
1. Write it down. Write an algebraic expression that shows how many apples you have now. Test it, it will include X , $+$, and $-$.

2. Mystery Numbers: Choose three different values for X . This is your secret starting number of apples. For each value, calculate how many apples you have at the end, using your expression.

ALGEBRAIC EXPRESSIONS: STORY

Name: _____

Write a story about a thing that starts in an expression, value, then follows the Apple Box Model — multiply or the magic, wait, wait!

The Apple Box Model
Double the number of apples you took.
Add 10 apples from the magic jar.
Subtract the number of apples you initially took.
See what you get!

Reflect on the Activity

What surprised you about the activity?
What part made you think the hardest?
How did thinking step by step help you understand the math better?
If you taught this story to someone else, what would you say?
