

ICE AGE

is Curious about Ice Age

Digging for bones

What does a palaeontologist need?

Ghost tracks have been found and these tracks are sometimes hidden. The right moisture is needed to see these tracks. Too much or too little water in the soil and you cannot see the outlines.

Draw a map and mark some of the best places to dig for bones from ice age animals and search for footprints.

Think Dive © 2018

WHAT IS INCLUDED

What is the Ice Age?

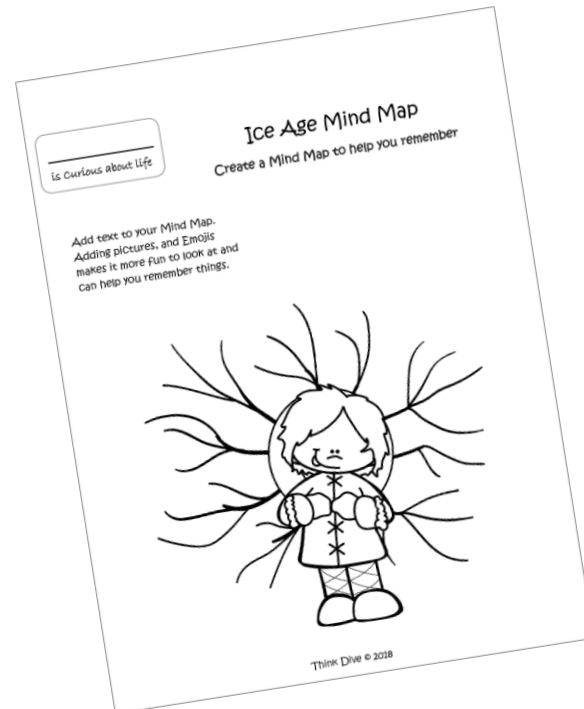

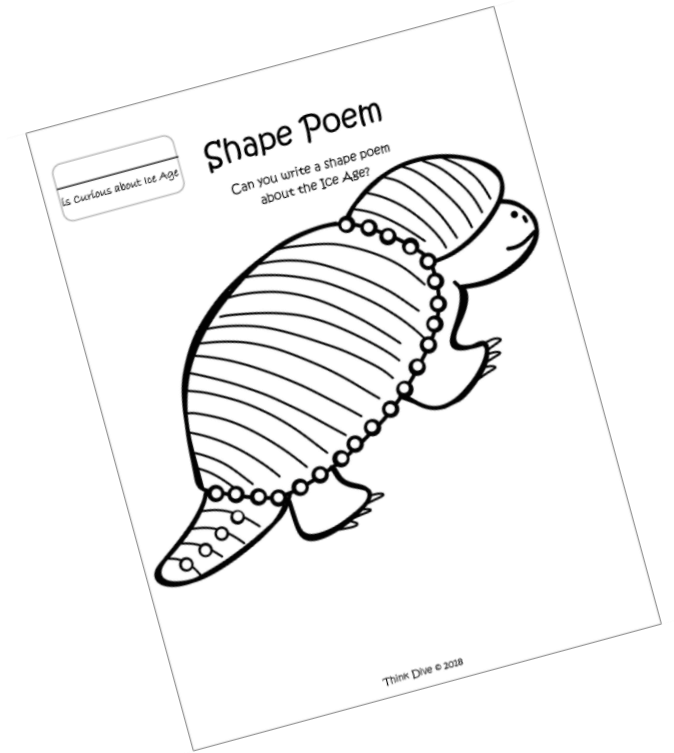

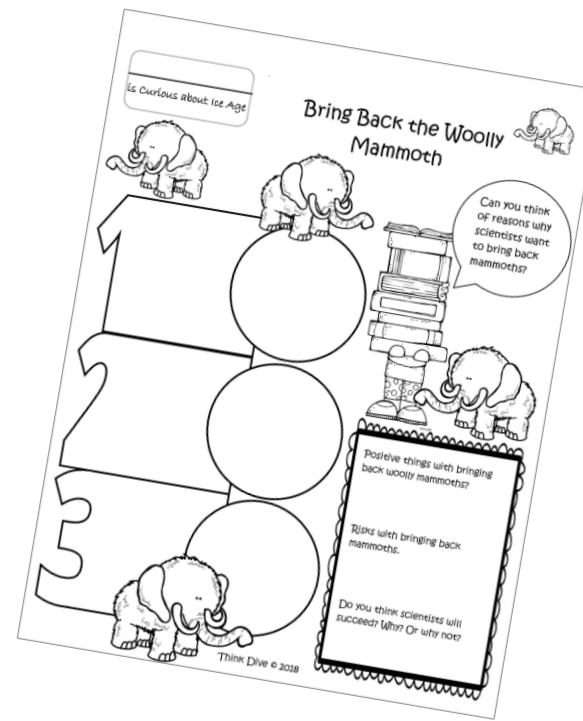

Travel back in time

Bring back the Mammoth

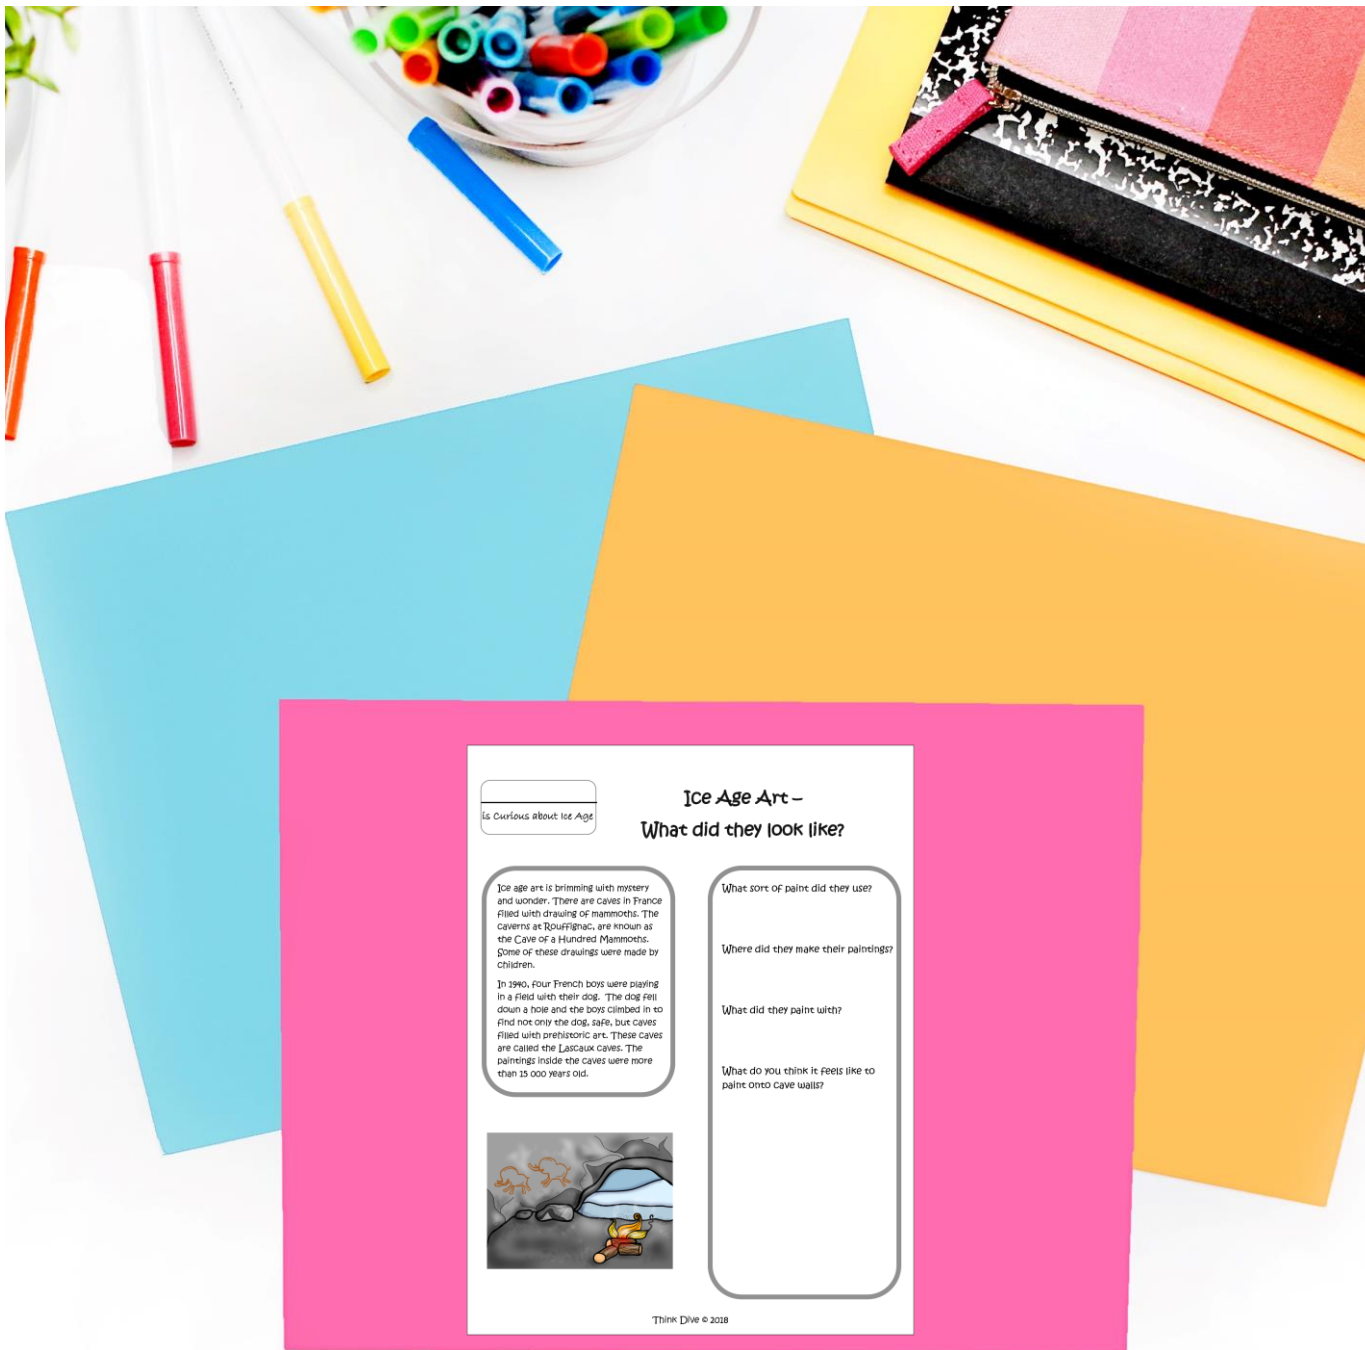

Fossil Frenzy

Ice Age Art

Posters

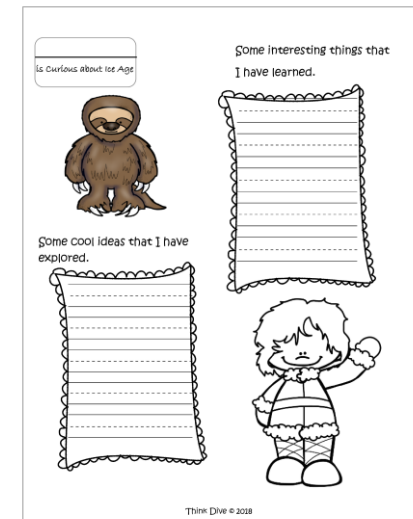

This is a lesson plan that will guide you through the fascinating times on Earth when ice sheets and glacier ice expanded to cover large areas of land. The activities are designed to inspire students to ask questions, and use critical thinking to explore this time period.

GREAT TO USE FOR

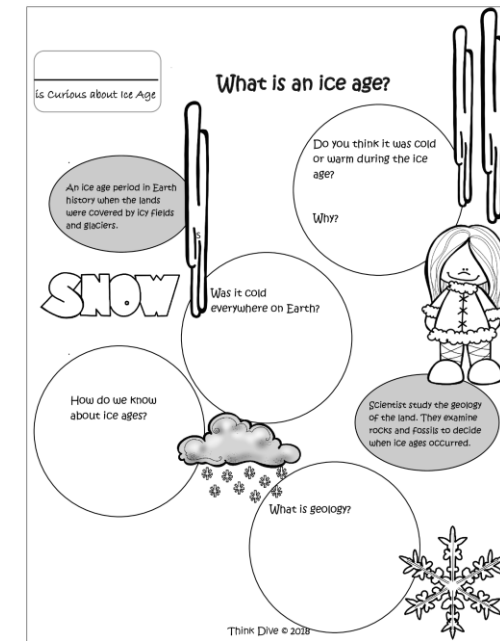

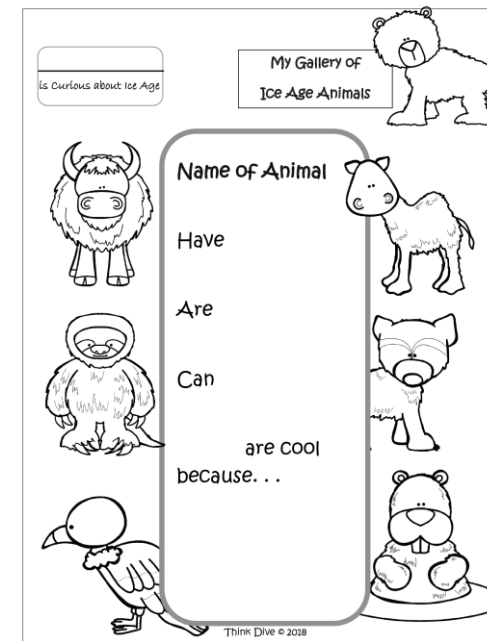

- ❖ Social Studies
 - ❖ Art
 - ❖ Centers
 - ❖ Independent Work
 - ❖ Creativity Challenges
 - ❖ Distance Learning
 - ❖ Easel Activities
- included

REVIEWS

“Very engaging, promoted independent work and looked great when completed. Awesome!”

“I love all of the investigations and activities you have included with this resource. Students will be busy and engaged. I also love the posters!”
