

SEA LIFE

Imagine that you are an octopus
and make up a dance.

What things are octopuses good
at? Use the ideas from the
dance to invent a robot. Maybe
a flying robot or a robot that
can pick up lots of things.

My ideas!

REVIEWS

“I assigned this to my remote learners to complete during the days we won't be able to meet due to state testing. The parents loved how everything was made where their kids can complete it independently with little help from them.”

“Such an interesting and engaging resource. I absolutely love project base learning and your approach to teaching young students. Thank you!”
