Name: _____

Ladybugs

Some years there are lots of ladybugs. In the picture below there are some branches covered in ladybugs.

What do you think has happened?
Are there many aphids a year when there are many ladybugs? What do you think?

Ladybugs eat aphids, tiny insects. Aphids are also called plant lice, green flies, black flies or white flies.

Can you draw a couple of aphids on the flower?

Do you think aphids are good and useful animals?
