

SPRING ANIMALS BIOMIMICRY

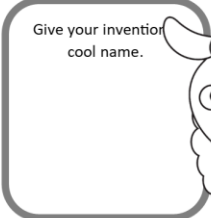

Lambs
Popcorn
Invent a jumping robot
inspired by popcorn
lambs. What things would the robot be able to do?
Make a clay model of your robot.

My idea

Give your invention
cool name.

WHAT IS INCLUDED

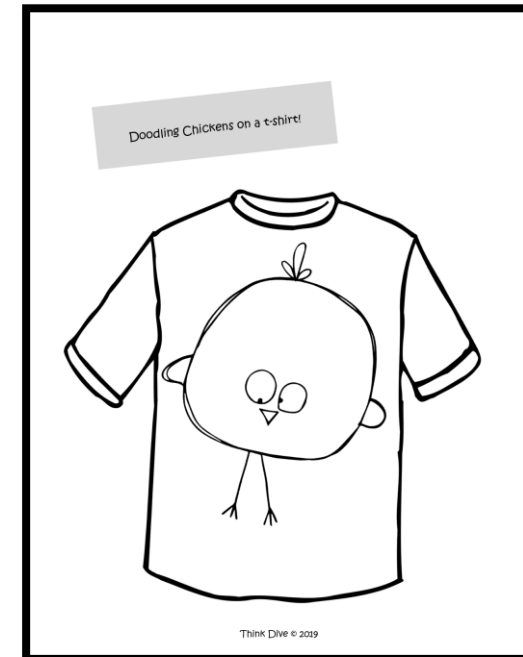

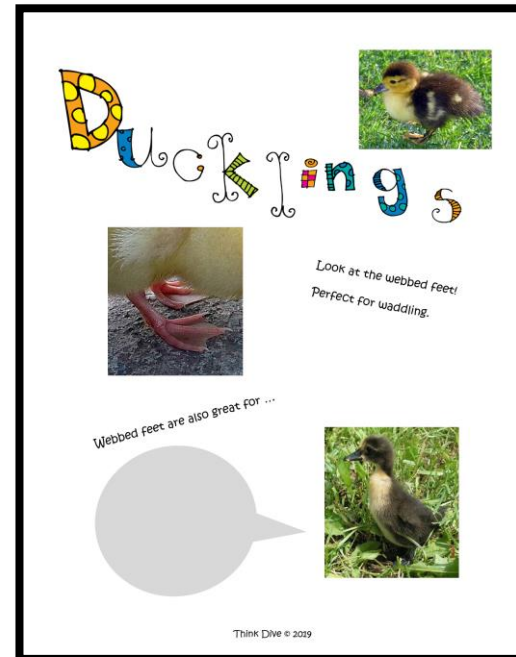

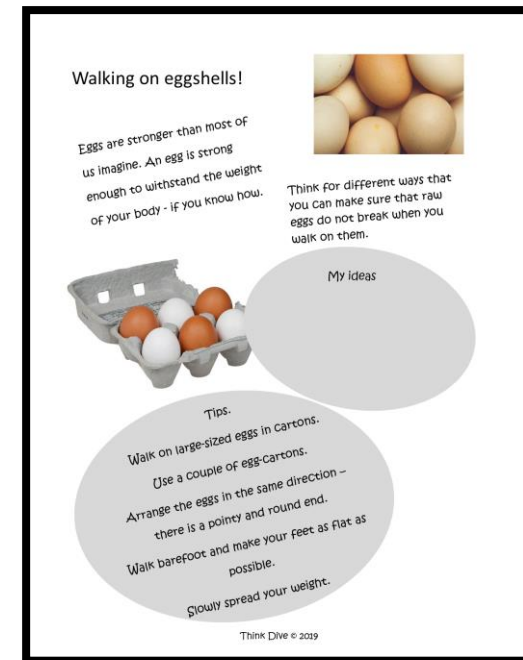

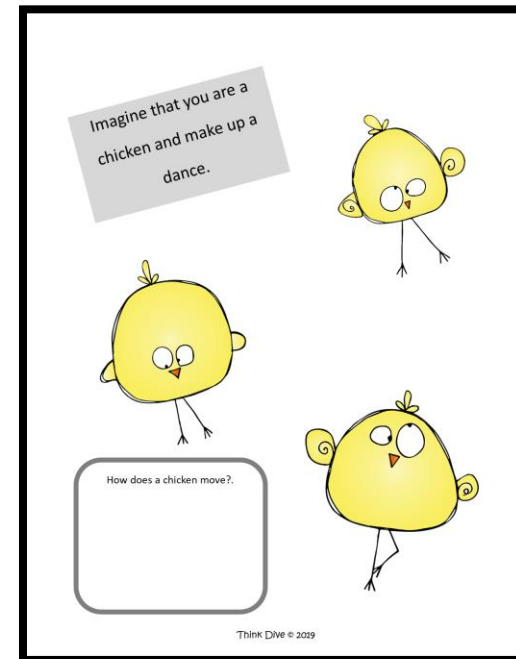

Activities using Chickens, Ducklings, Lambs, Rabbits, Frogs, Butterflies and Bird's Nest as inspiration

Doodling Activities

Imagination Challenges

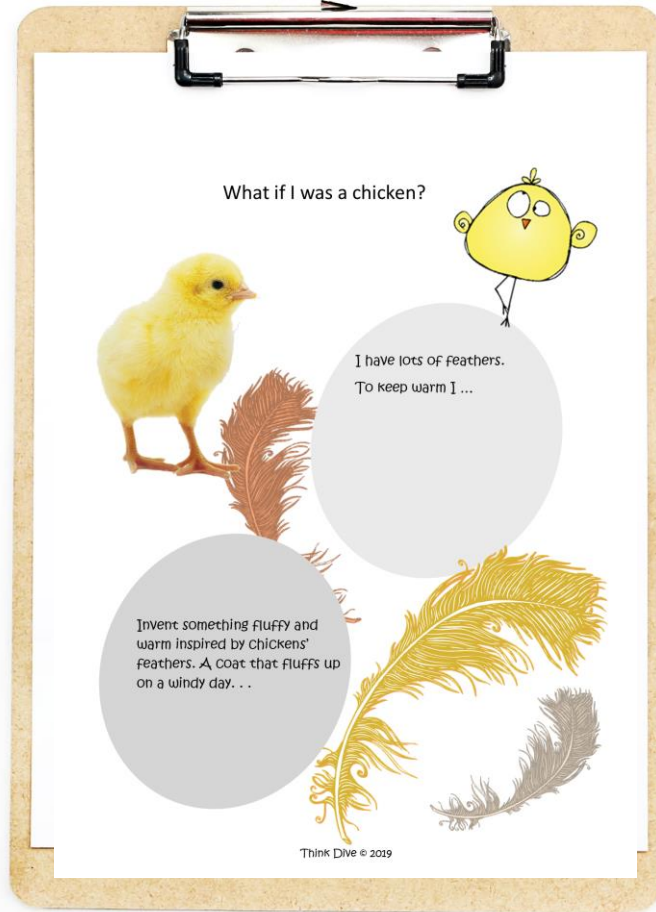

Design Challenges Inspired by Nature

Lapbook

GREAT TO USE FOR

- ❖ Animal Units
- ❖ Nature Projects
- ❖ Spring Projects
- ❖ Centers
- ❖ Independent Work
- ❖ Creativity Challenges
- ❖ Design Inspired by Nature - Biomimicry
- ❖ Distance Learning
- ❖ Easel Activities included

REVIEWS

“There is so much included in this pack. I love the set out of the tasks and the variety of different tasks too. It's very engaging and my kids love it. Thank you”

“My class was so engaged with this! It really pushed their thinking!”

“This worked well with my bird unit. The kids had a great time inventing new things to use feathers for. The other activities were great, we just didn't use them all.”

Design a helmet

Feel inspired by rabbits and their long ears. What can you do when you put on this helmet? Make a model of your helmet using recycled materials such as a cardboard box. You can also make a Papier-mâché helmet from newspapers and glue.

Can you draw your invention?

When would you use the helmet?

Give your invention a cool name.

Design Challenge

Build a bird's nest out of twigs. Twist and turn the nest around and see if you get any ideas for something that you can make out of the nest. Maybe a treehouse, or a house.

My idea

Can you draw your invention?

Think Dive © 2019

Torrent Frogs live in rapid-flowing mountain or hill streams with a lot of torrents.

Their tadpoles have sucker lips to help them stick to rocks in fast-flowing water.

Invent a thing that can suck into other things.
Like a ball that sucks into a racket.
