I CAN TELL A SCIENCE STORY

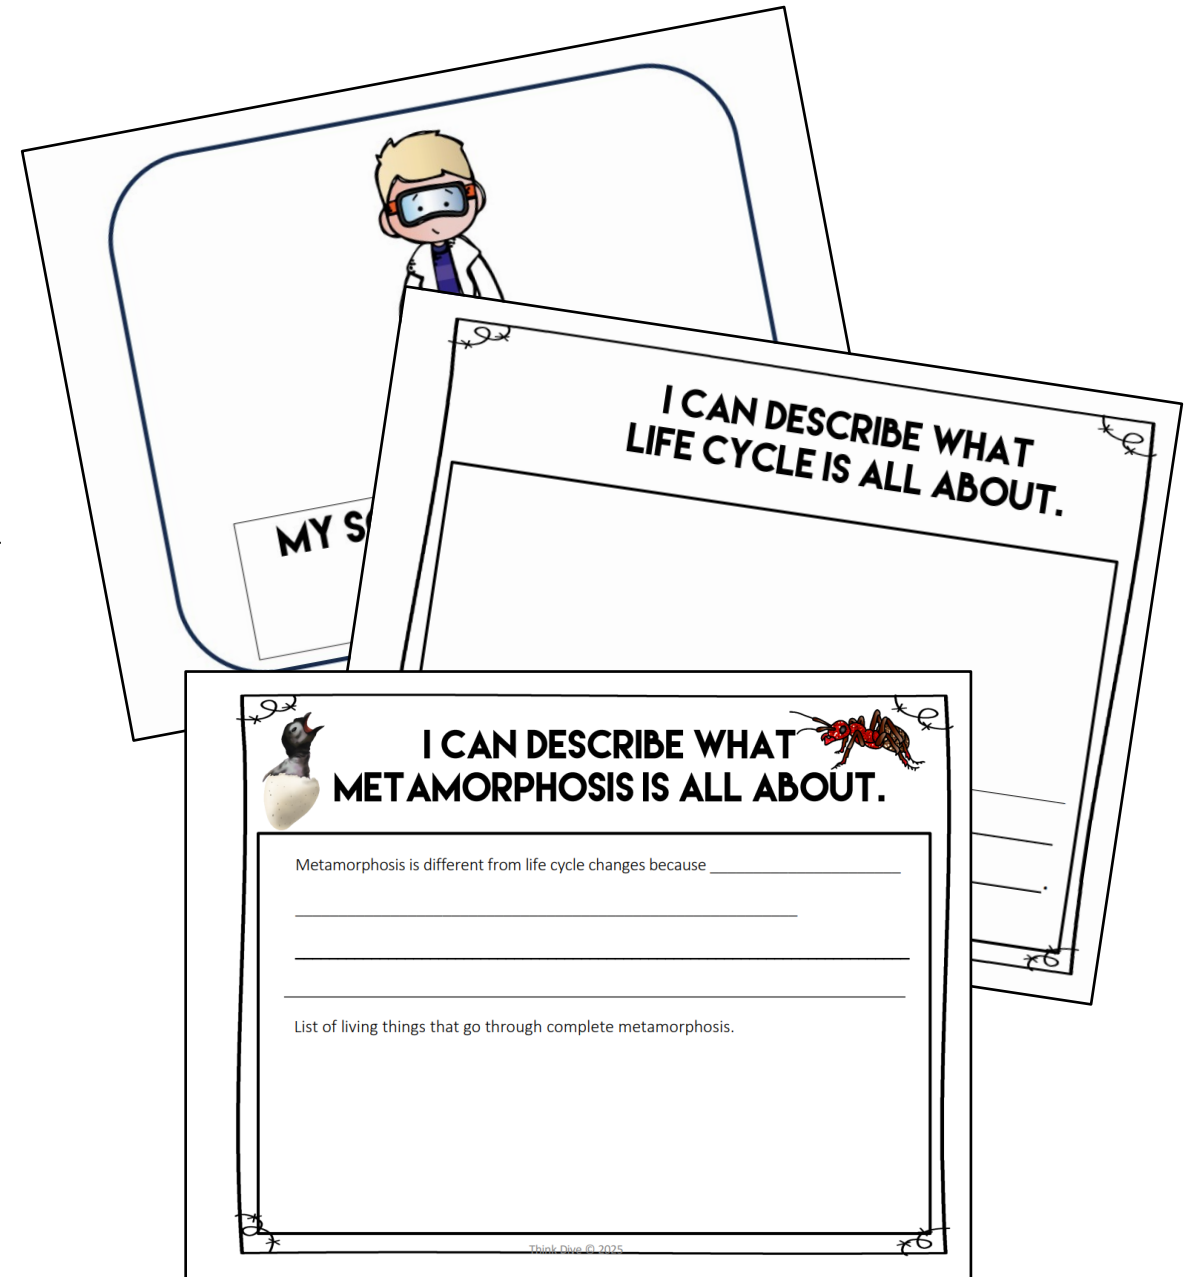

Write a diary about the metamorphosis of frogs. It usually takes around 14 days for a tadpole to metamorphose into a frog, but it takes as long as four years before a fully developed frog emerges.

REVIEW — MATH JOURNAL PROMPTS

“A wonderful set of problems to get students thinking; and I love the extra challenge provided by showing their work to explain how they arrived at the solution. Thank you for the great prompts!”

“I sent this booklet home for parents to help one of my students. It was easy to put it together. Thank you!”
