Look-Alike Lab

b/d/p/q and other mix-ups

LETTER LAB (26 LETTERS)

Meet the letter, answer six practice questions, trace it in capital and lowercase, then unlock its animal friend.

ALPHABET ZOO

A new animal sticker for each letter a child has really learned: alligator, bear, camel, dolphin and on to zebra. Letters not earned yet stay locked as a goal.

SMART PRACTICE

Look-alike letters are kept out of the same question until you want them together. More practice goes to the letters a child still misses and to the letters in their own name.

FOR TEACHERS & PARENTS

- Class letter matrix: every child, every letter
- Student report with five skill dots per letter
- Letters children mix up (for example, d mistaken for b)
- Letter Hunt speed over time
- One-on-one Quick Check you mark yourself
- Print reports, export CSV

SET IT UP YOUR WAY

- Choose the letters in play (Group 1, 1-2, 1-3, all, or the letters in your students' names)
- Uppercase, lowercase or both
- Separate look-alikes on or off
- Letter Hunt length: 30, 45, 60 or 90 seconds

Also included: natural-sounding recorded read-aloud voices (girl or boy, no internet needed) · stars and encouragement · multiple players · works offline on Chromebooks, iPads, tablets, computers and phones.

Quick Check

Mark ✓ or ✗ while a child names letters

How the colors are decided

Each letter keeps the child's last 10 results in each of five skills: naming, sound, case match, font match and tracing. **Secure** = 85% or more. **Growing** = 60 to 84%. **Needs practice** = under 60%. **Just started** = fewer than three tries. A zoo animal is earned after at least five tries across the skills with 80% or more correct.

Ways to use it

Center or station: a child plays one game for 10 minutes. **Small group:** check "Teach these next" and pull the children who share a gap. **Intervention:** set the letters in play to only the letters a child is missing. **Home:** a parent sees which letters to practice at dinner.

Good to know (honest limits)

ABC Quest is a practice and progress tool, not a formal screener or diagnostic. Tracing checks that the child covers the letter shape, not stroke order. Fonts shown in Font Detective depend on the device. Letter Hunt speed is a rough guide that depends on how well a child can use the screen.
