

BIOMIMICRY SKETCH

Use these printable to encourage students to think about how an animal or plant can play a key role in the story. Naturally, the innovation can also be a key character in a story, for example, a story can contain a robot that looks like an animal, or a person can use an innovation such as shoes that makes you run like an ostrich. This package contains a variety of templates and prompts to get students writing. You can change the writing demands depending upon the grade.

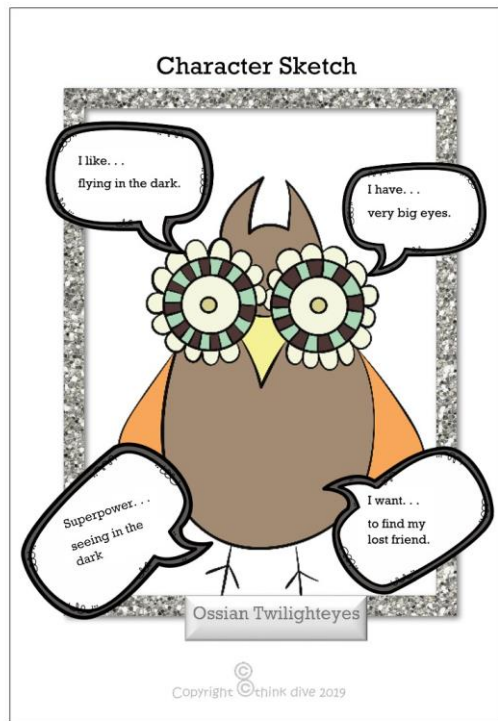

Use templates to write about the animal's superpowers, special skills and wants. There are also scene sketches that can help children to understand and create an exciting setting for the story.

GREAT TO USE FOR

- ❖ Biomimicry Projects Centers
- ❖ Independent Work
- ❖ Distance Learning
