Meet the Anglerfish:

Do your students love animals that look a bit scary? Meet the creepy-looking deep-sea anglerfish with built-in nightlights as well as an invisibility cloak. The female anglerfish lures other fish with its luminescent flesh growth that comes out of its big head. The fishing rod is just in front of its huge mouth filled with razor-sharp teeth.

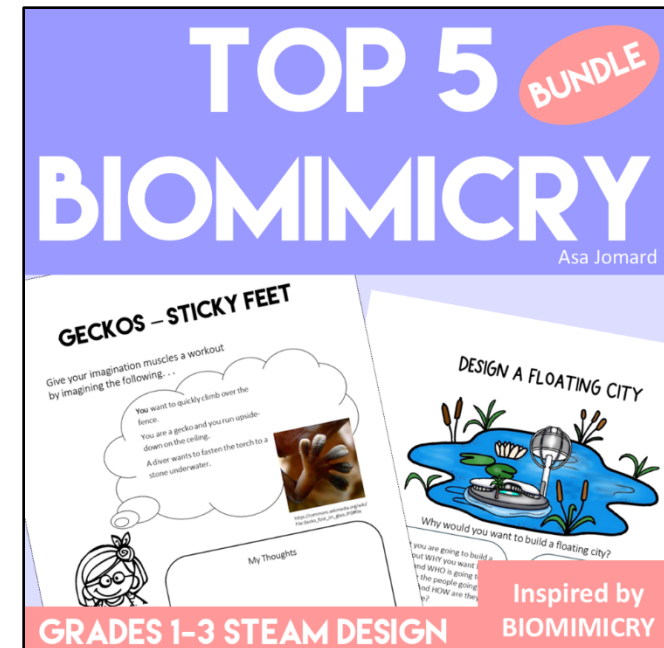

Ways to Use

- Science centers
- STEAM/Biomimicry Projects & Research
- Imagination & Creativity challenges
- Interesting animal to study for Halloween
