How To:

Set Up: Print (card stock is an excellent choice of paper), cut, and laminate each card.

To Play: Give each student a "student sheet". Place a card on each desk (random order). Have students move about the room and write their answers on their answer sheet.

Other Options: These cards are great as board math questions, interactive notebook practice, small group station, whole group activity with manipulatives, or even as homework practice!

21 Which two numbers add up to 20? Write an equation to show your answer.

3 17 7

$$\square + \square = \square$$

©2018 Sarah Magallano

22 Which two numbers add up to 20? Write an equation to show your answer.

18 4 2

$$\square + \square = \square$$

©2018 Sarah Magallano

23 Which two numbers add up to 20? Write an equation to show your answer.

9 7 13

$$\square + \square = \square$$

1 Which two numbers add up to 5? Write an equation to show your answer.

2 2 3

$\square + \square = \square$

2 Which two numbers add up to 7? Write an equation to show your answer.

0 8 7

$\square + \square = \square$

5 Which two numbers add up to 10? Write an equation to show your answer.

9 0 1

$\square + \square = \square$

6 Which two numbers add up to 10? Write an equation to show your answer.

4 4 6

$\square + \square = \square$

9 Which two numbers add up to 15? Write an equation to show your answer.

9 8 7

$\square + \square = \square$

10 Which two numbers add up to 15? Write an equation to show your answer.

13 4 2

$\square + \square = \square$

3 Which two numbers add up to 9? Write an equation to show your answer.

2 6 3

$\square + \square = \square$

4 Which two numbers add up to 8? Write an equation to show your answer.

5 2 3

$\square + \square = \square$

7 Which two numbers add up to 10? Write an equation to show your answer.

3 7 2

$\square + \square = \square$

8 Which two numbers add up to 10? Write an equation to show your answer.

2 3 8

$\square + \square = \square$

11 Which two numbers add up to 15? Write an equation to show your answer.

9 7 6

$\square + \square = \square$

12 Which two numbers add up to 15? Write an equation to show your answer.

12 11 3

$\square + \square = \square$

13 Which two numbers add up to 18? Write an equation to show your answer.

9 8 9

$\square + \square = \square$

14 Which two numbers add up to 16? Write an equation to show your answer.

5 11 6

$\square + \square = \square$

17 Which two numbers add up to 20? Write an equation to show your answer.

8 12 2

$\square + \square = \square$

18 Which two numbers add up to 20? Write an equation to show your answer.

14 9 6

$\square + \square = \square$

21 Which two numbers add up to 20? Write an equation to show your answer.

3 17 7

$\square + \square = \square$

22 Which two numbers add up to 20? Write an equation to show your answer.

18 4 2

$\square + \square = \square$

15 Which two numbers add up to 18? Write an equation to show your answer.

9 7 10

$\square + \square = \square$

16 Which two numbers add up to 14? Write an equation to show your answer.

8 7 6

$\square + \square = \square$

19 Which two numbers add up to 20? Write an equation to show your answer.

10 5 15

$\square + \square = \square$

20 Which two numbers add up to 20? Write an equation to show your answer.

11 9 8

$\square + \square = \square$

23 Which two numbers add up to 20? Write an equation to show your answer.

9 7 13

$\square + \square = \square$

24 Which two numbers add up to 20? Write an equation to show your answer.

4 16 6

$\square + \square = \square$

25 Which two numbers add up to 25? Write an equation to show your answer.

20 16 5

$\square + \square = \square$

26 Which two numbers add up to 25? Write an equation to show your answer.

21 4 16

$\square + \square = \square$

29 Which two numbers add up to 30? Write an equation to show your answer.

20 9 10

$\square + \square = \square$

30 Which two numbers add up to 30? Write an equation to show your answer.

22 5 25

$\square + \square = \square$

27 Which two numbers add up to 25? Write an equation to show your answer.

8 19 6

$\square + \square = \square$

28 Which two numbers add up to 25? Write an equation to show your answer.

7 8 18

$\square + \square = \square$

31 Which two numbers add up to 35? Write an equation to show your answer.

19 15 16

$\square + \square = \square$

32 Which two numbers add up to 35? Write an equation to show your answer.

24 12 23

$\square + \square = \square$

Teacher Answer Sheet: First Grade Math Combinations Equations

- | | | |
|-------------------|-------------------|-------------------|
| 1. $2 + 3 = 5$ | 12. $12 + 3 = 15$ | 23. $7 + 13 = 20$ |
| 2. $0 + 7 = 8$ | 13. $9 + 9 = 18$ | 24. $4 + 16 = 20$ |
| 3. $6 + 3 = 9$ | | |
| 4. $5 + 3 = 8$ | | |
| 5. $9 + 1 = 10$ | | |
| 6. $4 + 6 = 10$ | | |
| 7. $3 + 7 = 10$ | | |
| 8. $2 + 8 = 10$ | | |
| 9. $8 + 7 = 15$ | | |
| 10. $13 + 2 = 15$ | | |
| 11. $9 + 6 = 15$ | | |

Student Answer Sheet

Name: _____

- | | | |
|-----------|-----------|-----------|
| 1. _____ | 12. _____ | 23. _____ |
| 2. _____ | 13. _____ | 24. _____ |
| 3. _____ | 14. _____ | 25. _____ |
| 4. _____ | 15. _____ | 26. _____ |
| 5. _____ | 16. _____ | 27. _____ |
| 6. _____ | 17. _____ | 28. _____ |
| 7. _____ | 18. _____ | 29. _____ |
| 8. _____ | 19. _____ | 30. _____ |
| 9. _____ | 20. _____ | 31. _____ |
| 10. _____ | 21. _____ | 32. _____ |
| 11. _____ | 22. _____ | |
