

TEKS Grade 7 - S.7.14 Bundle

Using the Taxonomic System to Describe Relationships Between Organisms

- ✓ 7th Grade Science TEKS Curriculum Bundle - S.7.14.A, S.7.14.B
- ✓ Variety of Lesson and Activity Types
- ✓ Digital + Printable Formats

NEW 2024

Resources Included

- ✓ **Complete S.7.14 - 7th Grade Science TEKS Curriculum** | Organisms and environments. The student knows how the taxonomic system is used to describe relationships between organisms.
- ✓ **Variety of Resource Types** - Includes lessons, activities, assessments, and more.
- ✓ **Daily Teaching Timeline Included** - Includes a ready-to-go, daily teaching timeline.
- ✓ **Digital + Printable Formats** - Ideal for classroom, hybrid, or remote learning environments with flexible access options.

Resources Included

TEKS Grade 7 - S.7.14.A Categorizing Organisms by Taxonomic Systems

- ✓ 7th Grade Science TEKS Curriculum Bundle
- ✓ Variety of Lesson and Activity Types
- ✓ Digital + Printable Formats

NEW 2024

TEKS Grade 7 - S.7.14.B Classification of Living Things

- ✓ 7th Grade Science TEKS Curriculum Bundle
- ✓ Variety of Lesson and Activity Types
- ✓ Digital + Printable Formats

NEW 2024

Daily Teaching Timeline Included for Each Standard

TEKS – Grade 7

S.7.14 - Organisms and environments. The student knows how the taxonomic system is used to describe relationships between organisms. The student is expected to:

S.7.14.A - The student is expected to describe the taxonomic system that categorizes organisms based on similarities and differences shared among groups.

Resources:

- *Classifying Life - Classification, Taxonomy, and Dichotomous Keys – Lesson*
- *Classification of Living Things – A Digital Scavenger Hunt Activity*

TEKS Science Daily Teaching Plan

Lesson Length: 55 minutes

Timeframe: 2 Days

Day	Lesson/Activity
Day 1	Classifying Life - Classification, Taxonomy, and Dichotomous Keys – Lesson
Day 2	Classification of Living Things – A Digital Scavenger Hunt Activity

S.7.14 - Organisms and environments. The student knows how the taxonomic system is used to describe relationships between organisms. The student is expected to:

S.7.14.B - The student is expected to describe the characteristics of the recognized kingdoms and their importance in ecosystems such as bacteria aiding digestion or fungi decomposing organic matter.

Resources:

- *Classification of Living Things – Lesson*
- *The Classification of Living Things Lab Station Activity*

TEKS Science Daily Teaching Plan

Lesson Length: 55 minutes

Timeframe: 2 Days

Day	Lesson/Activity
Day 1	Classification of Living Things – Lesson
Day 2	The Classification of Living Things Lab Station Activity

Lessons, Activities, Assessments, and more

Classifying Life - Exploring Biodiversity Lesson

- What is Biodiversity?
- Why Classify Living Things?
- 6 Major Groups of Organisms
- Classification/Taxonomy
- How Living Things are Grouped
- 7 Levels of Taxonomy
- Binomial Naming System
- Dichotomous Key

Device-Based Scavenger Hunt Classification of Living Things

Includes

- 5 Unique Locations
- Online form submission
- Answer Key

Works on all smartphones, tablets, Chromebooks, and laptops

• 100% Digital

- Simulations
- Quizzes
- Videos
- Games
- Word Scramble
- and more

The Classification of Living Things

- Inquiry Activity
- How living things are grouped
- Taxonomy
- Naming Organisms
- The 6 Kingdoms
- Dichotomous Key

This digital presentation includes both Google and Office resources and is Google Classroom Ready

Classification of Living Things Lab Station Activity

7 Lab Station Activities to get your kids out of their seats and engaged in their learning

Who is this Bundle for?

- **Teachers who teach 7th grade science in Texas**
- **Teachers who want multiple resources at their fingertips including lessons and a variety of activities, in order to prepare their students for the STAAR Science Exam**
- **Teachers who don't have time to develop their own resources or organize what to teach and when**
