Plot Twist!

Directions for Use

These cards can be used as task cards or as Interactive Notebook response cards. Each card will work for any fiction book your student is reading (with the one exception being if their genre change card actually matches the genre they are currently reading – simply move on to another replacement genre if this happens!).

To use as Task Cards, print (color or black and white), cut, and laminate. Students can respond on the provided sheet or on their own paper. You can print the example response on the back of the task cards, create a set of example cards for students to access when needed, or not use them at all.

To use as Interactive Notebook response cards, print in black and white for each student to glue into the IN next to their response, or provide a class set and have students label their answer with the card number. The example cards should not be printed on the back if you choose to have students glue the cards into INs.

Included is a tracking sheet for students to use, so they only answer each question once per book, and a tracking sheet for your use. I find it helpful to see if students are gravitating towards a limited set of responses. You can also assign a certain response each week and use the form to track those who did not complete the task.

PLOT

Little Red Riding Hood woke up in a zombie apocalypse she would survive and take care of others. She is brave and capable because she beat the wolf and saved her grandmother so zombies wouldn't get her!

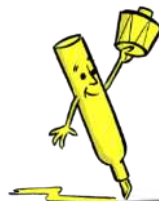

Activated Education © 2015

PLOT TWIST!

#2 Example

If Little Red Riding Hood found out she had a twin sister she would make friends with her and they would explore the woods together because together they would be safe.

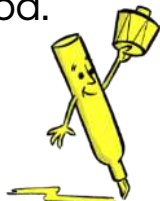

Activated Education © 2015

36 example cards

PLOT TWIST!

#3 Example

Little Red Riding Hood would make a good princess because she cares about others. For example, she saved her grandmother instead of running away. She would also enjoy the fashions because she liked wearing her red hood.

Activated Education © 2015

PLOT TWIST!

#4 Example

Little Red Riding Hood discovers she can fly! She uses her new superpower to visit her grandmother every day without having to walk through the dangerous woods.
