Over 21,000 Downloads!

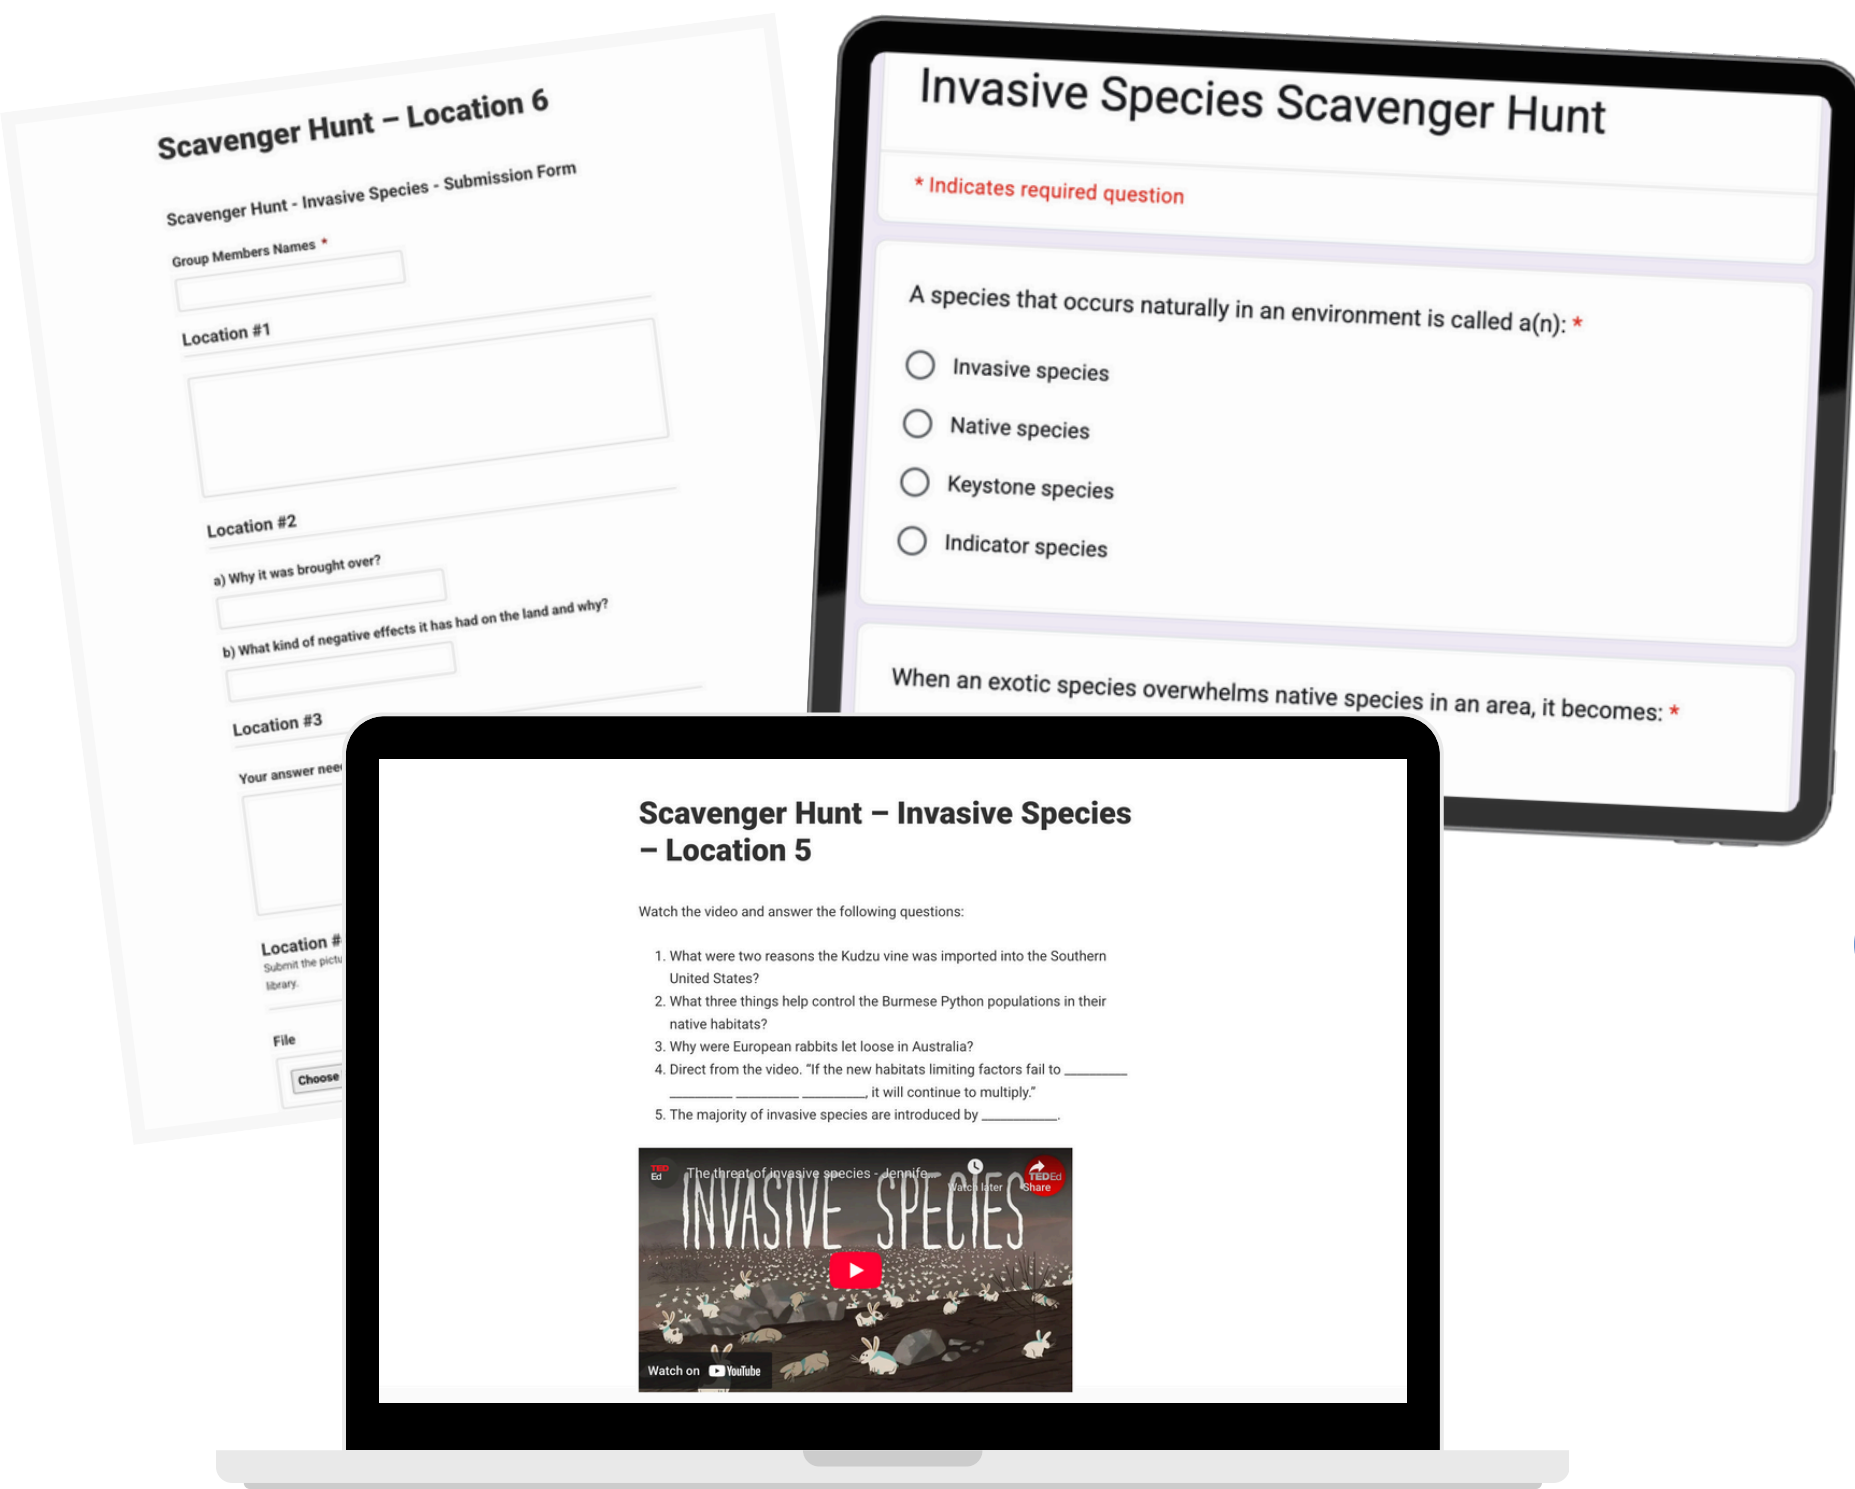

ENGAGING, READY-TO-GO, EVIDENCE-PRODUCING ACTIVITIES YOU CAN DELIVER IN A SINGLE PERIOD

- Interactive Scavenger Hunt - Print + Digital
- Works with smartphones, tablets, or laptops—just print, post, and go
- Students explore physics, biology, chemistry, ecology, and more

60+ Engaging Activities

60+ Interactive Scavenger Hunts – Students explore physics, biology, chemistry, ecology, and more using QR codes

Hands-On Digital Learning – Works with smartphones, Chromebooks, tablets, or laptops—just print, post, and go

No Prep Needed – Includes editable Word & PDF versions, automatic grading, and engaging multimedia tasks

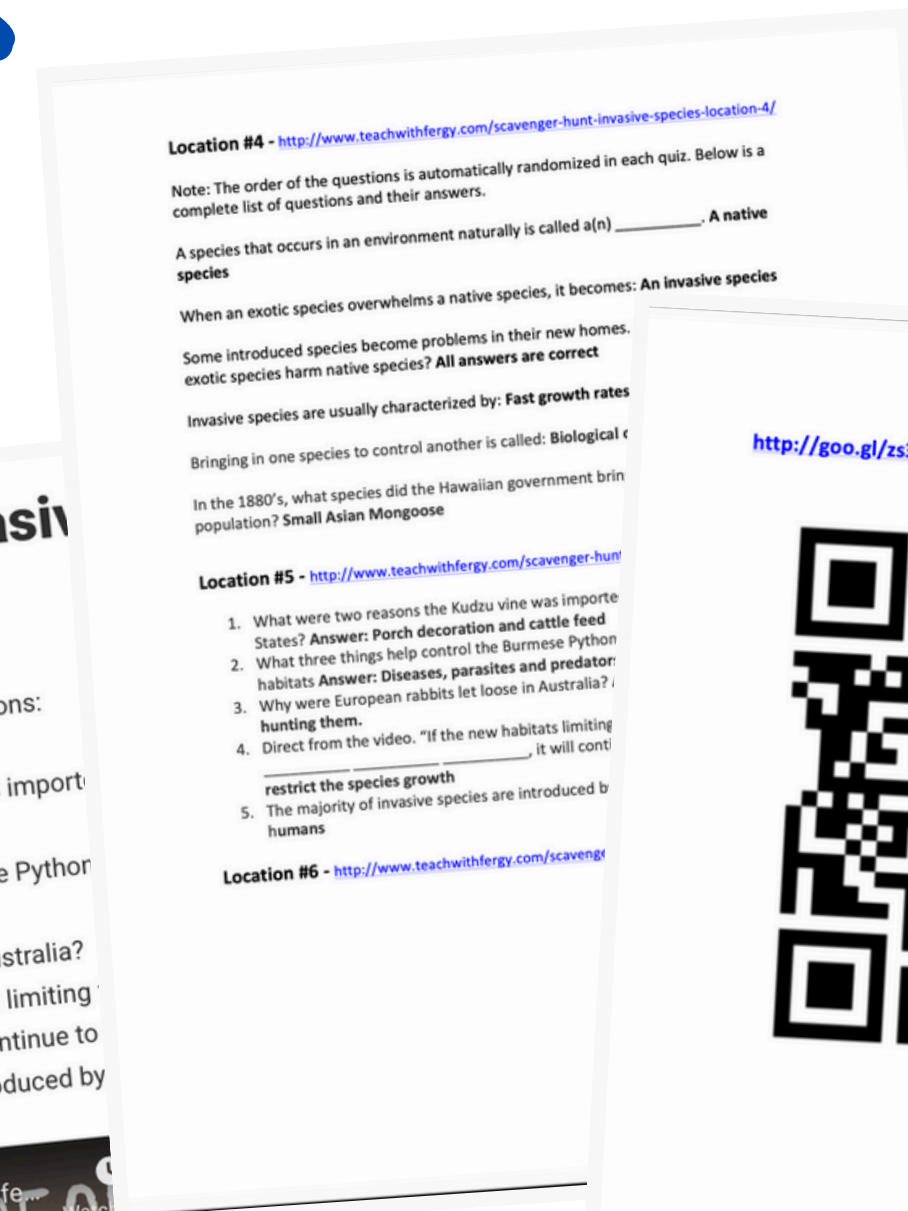

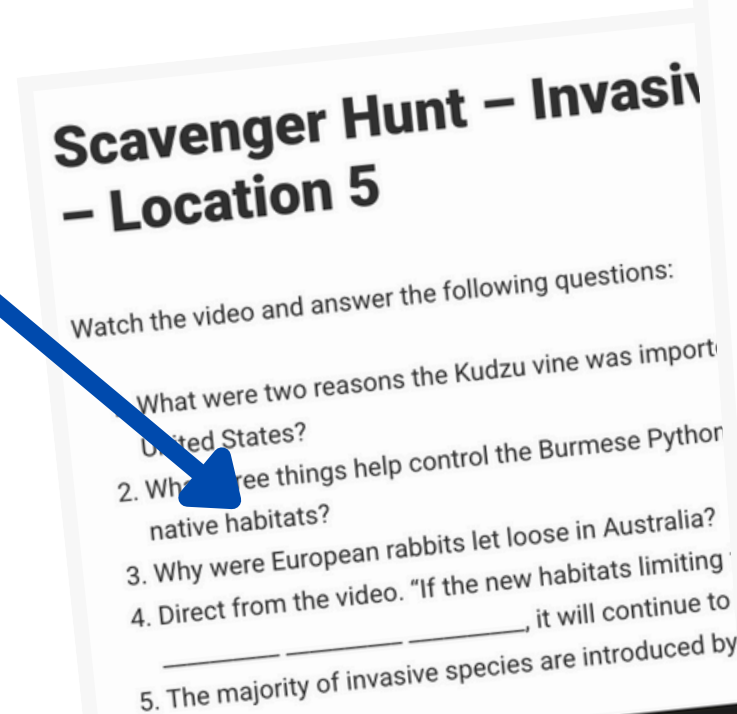

Extremely satisfied - Great way to get students up and moving while integrating technology.

What You Get in Your Activities

- ★ 5 QR code stations
- ★ auto-graded quiz
- ★ teacher guide and answer key
- ★ videos/simulations
- ★ digital submission form
- ★ PDF and Word options

How the Activities Work

Location #1

<http://goo.gl/zs3PZG>

1) Students access each of the 5 stations via a QR code or website URL.

Scavenger Hunt – Invasive Species – Location 5

Watch the video and answer the following questions:

1. What were two reasons the Kudzu vine was imported into the Southern United States?
2. What three things help control the Burmese Python populations in their native habitats?
3. Why were European rabbits let loose in Australia?
4. Direct from the video. "If the new habitats limiting factors fail to _____, it will continue to multiply."
5. The majority of invasive species are introduced by _____.

2) Students then perform the station task.

Scavenger Hunt – Location 6

Scavenger Hunt - Invasive Species - Submission Form

Group Members Names *

Location #1

Location #2

a) Why it was brought over?

b) What kind of negative effects it has had on the land and why?

Location #3

Your answer needs to be 2-4 sentences long.

Location #4

Submit the picture you took of your quiz score below. It will be found in your phone's photo library.

File

Choose File No file chosen

Max. file size: 256 MB.

3) Each group submits their answers in Station 6 which is a form that is automatically emailed directly to you.

Computer, Tablet, or Phones

* Indicates required question

A species that occurs naturally in an environment is called a(n): *

- ☐ Invasive species
- ☐ Native species
- ☐ Keystone species
- ☐ Indicator species

When an exotic species overwhelms native species in an area, it becomes: *

- ☐ Endemic species

Mobile Friendly and Easy to Use

Teacher Reference and Answer Key

Location #1 - <http://www.teachwithfergy.com/scavenger-hunt-the-circulatory-system-location-1/>

Long Answer:
Assume you are a red blood cell and will be taking a trip starting at the right atrium, going to the lungs and ending as you exit the heart into the aorta. List the order of the major structures (structures in the heart and blood vessels) you will pass through/by in the proper order. Hint, there are 7 of them.
Right Atrium → Right Ventricle → Pulmonary Artery → Lungs/Alveoli → Pulmonary Vein → Left Atrium → Left Ventricle

Location #2 - <http://www.teachwithfergy.com/scavenger-hunt-the-circulatory-system-location-2/>

Video:
According to the video below, what are the 4 main symptoms of heart disease? Provide a brief description of each.

1. Chest pressure or pain - pressure or discomfort in the chest.
2. Shortness of breath when resting or during exercise.
3. Lower extremity edema - swelling in the lower extremities.
4. Palpitations - funny sensations around the heart that are either irregular or fast.

Location #3 - <http://www.teachwithfergy.com/scavenger-hunt-the-circulatory-system-location-3/>

Word Scramble:
Unscramble the following words and enter them into your submission form. All words are objects in the circulatory system. Once you've unscrambled the words, you must use them ALL in just ONE sentence. You might need to be a bit creative here.

- 1) EATRH - Heart
- 2) AYRETR - Artery
- 3) VENI - Vein
- 4) RETNCLVIE - Ventricle

Answer: Blood enters the **Heart** via **Veins**, travels into the atrium, then is sent to the **Ventricle** and out through an **Artery**.
