ROUNDING TO THE NEAREST 100 USING A NUMBER LINE

- Find the two hundreds your number is between.
- Write those two numbers at each end of the number line.
- Put your number on the number line.
- Decide which hundreds number is closer.
- If it is halfway (tens place ends in 5), go up to the next hundred.

Example: Round 143 to the nearest 100

100 143 200

143 is closer to 100, so the answer is 100.
