What teachers are saying about Frenchified's readings:

I love how comprehensible these readings are and the fact that my students actually feel confident answering the comprehension questions.

These resources are culturally perfect for me! While some of them are a bit of a more difficult read for my 5th graders, I am still able to use them. The vocabulary is rich, and most of all, the subjects are different from any other texts I have encountered so far! Love them!

Nom: _____ Classe: _____
