

Interactive Ten Frame PowerPoint Activity

TEACHER NOTES

This interactive PowerPoint presentation is designed to be interactive for use with an IWB or touch screen device.

The first 3 sets of slides showing

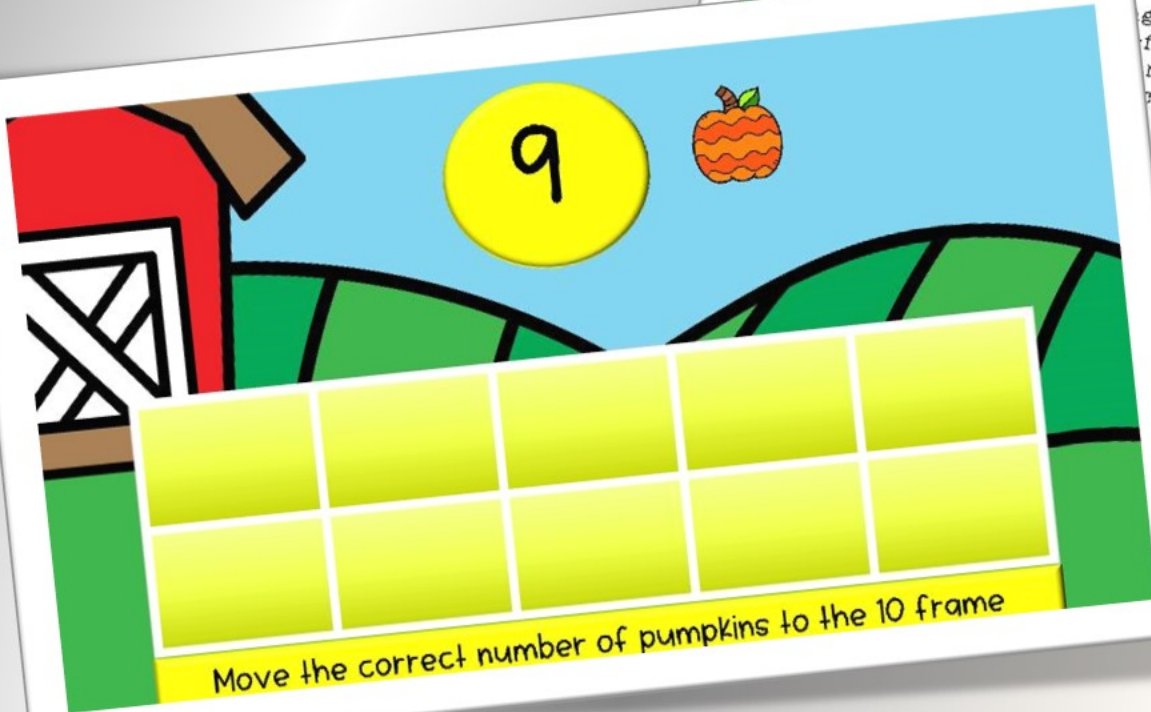

- Pumpkins
- Ghosts
- Monsters

Will need to be presented to your students in NORMAL VIEW so that the objects are able to be dragged into the ten frame.

I highly recommend that you make a copy of this resource to keep as a back up in case you save changes. (this will mean that all of the ten frames will have been filled as per directions by the students and you will need to reset it)

g Bats, will need to be shown in presentation mode, so from current slide" and your presentation will go on click on the slide to reveal the correct response

ognised how many bats there are in the ten frames.
Happy Counting!!!

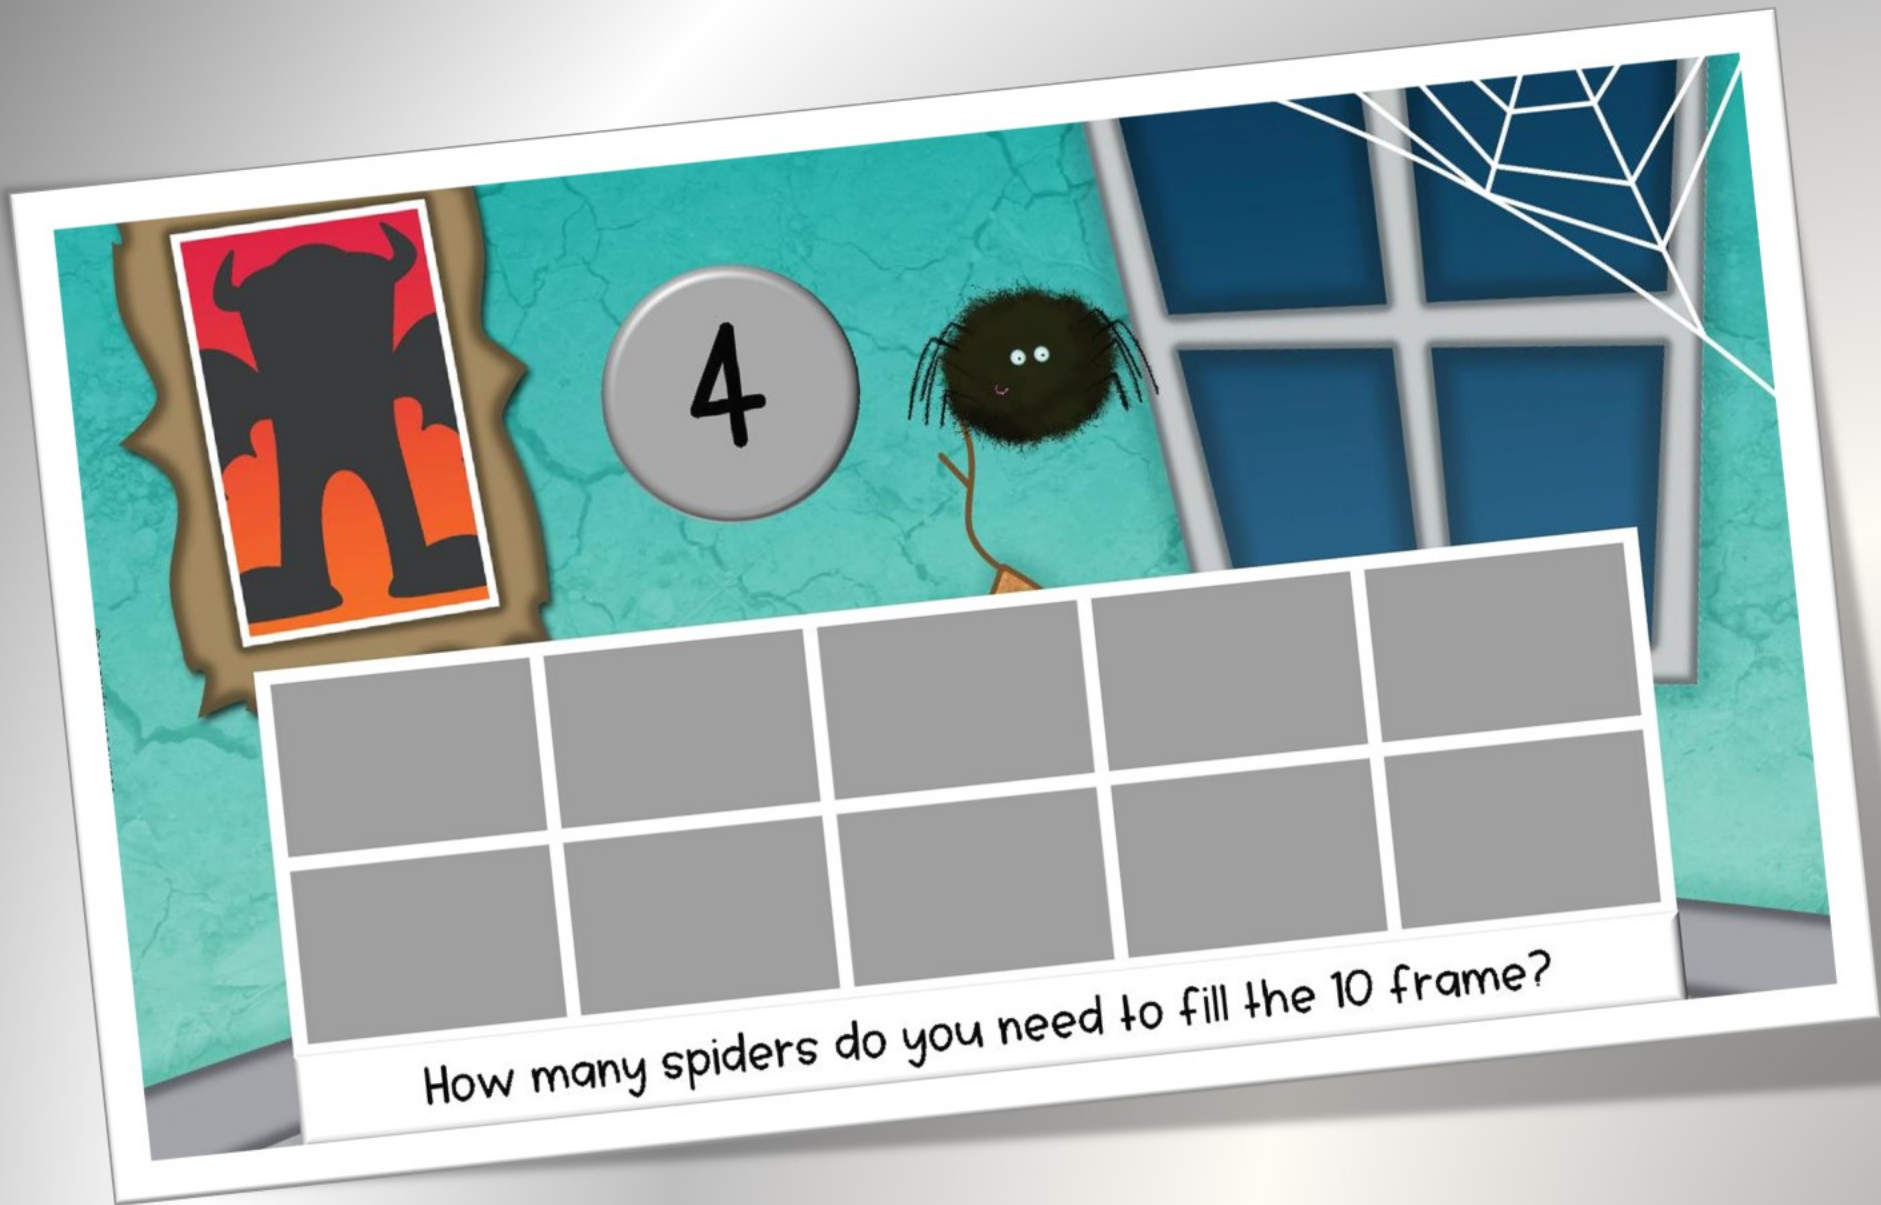

How many more monsters are needed to fill the 10 frame?

7

A 10-frame (two rows of five) with a blue background. The top row contains 5 cartoon monsters. The bottom row contains 2 cartoon monsters in the first two cells, and 3 empty cells. The frame is set against a dark background with yellow stars and a green and blue patterned border at the bottom.

10

A 10-frame (two rows of five) with a black background. The top row contains 1 cartoon ghost in the last cell, and 4 empty cells. The bottom row contains 5 empty cells. The frame is set against a background with a blue sky, a black tree, and a house with yellow windows. A green banner at the bottom reads "number of ghosts to the 10 frame".

CREDITS

Without the brilliance of these clip artists and font designers, our resources would not be as engaging and fun to create, nor for our students to use. Please take time to visit these wonderful designers.
