Digital activities

It's 7 AM and your alarm just went off...

As you look at your phone, you realize that it's February 2 - again! You've been caught in a time loop and can't escape! Or can you? You've found that someone has left challenges for you to do and they all involve the past tense. Maybe learning about the past is the way to escape the time loop and move on to the future? It's worth a try!

Story and instructions
are in English so your
students will understand
the premise and task

Challenge 2

To complete this challenge, put the events in the correct order that they happened.

First

Nous avons crié "Surprise!"

Second

Mon amie est entrée dans son appartement.

Third

Nous avons attendu chez mon amie.

Fourth

Sorry...that's not correct.

Go back and try again.

Each task is self-grading -
a wrong answer sends
students back to try
again.
