

THE *Sweet* LIFE OF PRIMARY

Digital WORD WALL

DIGITAL Word Wall

In a time when remote/distance learning is in full force, students still need to be able access words that they frequently use! That is where this digital word wall really comes in handy!

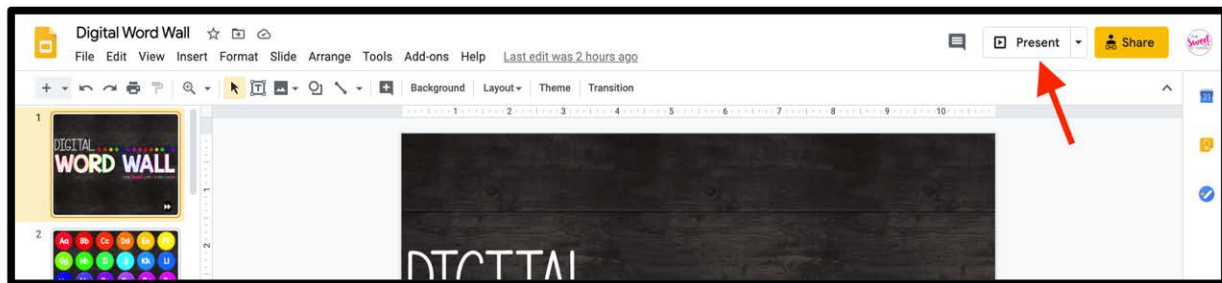

This interactive digital word wall has all the letters linked to a slide with an alphabetical list of high frequency words that begin with that letter. There are also linked backward, forward, and home buttons/icons, so students can move about the slides in the order they like/need. This digital word wall can be given to students in Google Slides, shared in Google Classroom with a link, be put on your Google Site(s), or even downloaded as a PDF. If giving this resource in Google Slides, you just have to make sure that you are in "Present" mode.

To use this resource in presentation mode only (nothing is editable), just [CLICK HERE!](#)

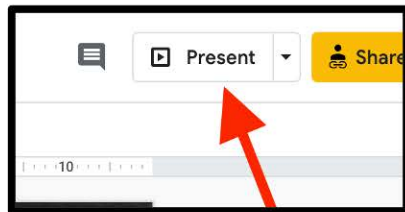

DIGITAL Word Wall

How to make this resource interactive.

You will want to make sure your students are in "Present" mode.

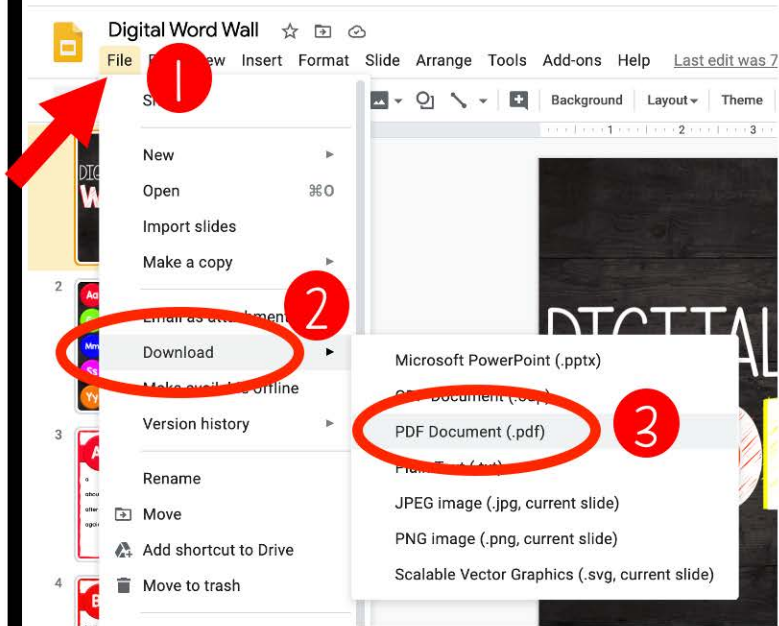

"Present" mode will make all the links active, so all students need to do is click on the letters of the high frequency words that begin with that letter.

DIGITAL Word Wall

PDF Version: If you prefer a PDF version, follow the steps below!

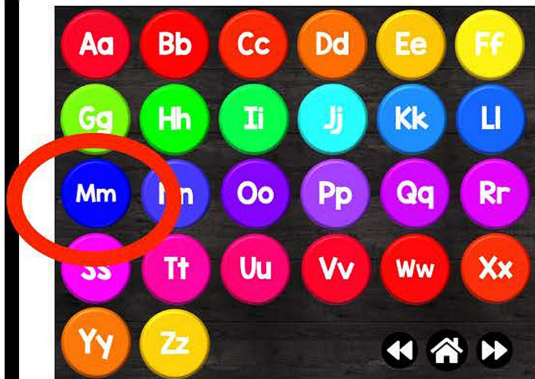

1. Click on File.
2. Click on Download.
3. Click on PDF Document (.pdf)

Even as a PDF file, the clickable links stay in tact, keeping the resource interactive!

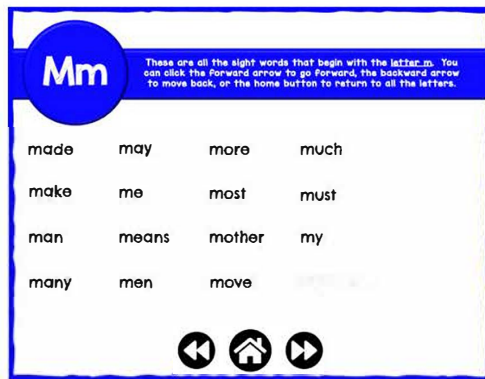

DIGITAL Word Wall

How to make this resource interactive.

You will want to make sure your students are in "Present" mode.

Students will click on the letter the word they are looking for begins with. This example shows what will happen if a student clicks on Mm.

Then students will be taken to the corresponding word page, where they can look for the word they need.

DIGITAL Word Wall

These icons are included on each slide so students can easily navigate through the digital word wall. The backward arrow will take students one slide back, the forward arrow will take students one slide forward, and the home icon will take students back to the home slide with all the letters of the alphabet.

DIGITAL Word Wall

Words are EDITABLE!

I have left the table on each word list to be completely editable. You can change the font, font size, add, or delete words to your liking. The included words are from the first 200 high frequency word lists.

The screenshot shows a digital word wall interface. At the top, a blue header bar contains the text "Mm" in a large white font. Below this, a smaller blue bar contains the text: "These are all the sight words that begin with the letter m. You can click the Forward arrow to go Forward, the backward arrow to move back, or the home button to return to all the letters." Below the header, a table of sight words is displayed. The words are arranged in four rows and four columns. The words are: made, may, more, much; make, me, most, must; man, means, mother, my; many, men, move, any word. The word "any word" is circled in red, and a red arrow points to it. At the bottom of the interface, there are three circular navigation buttons: a left arrow, a home button (house icon), and a right arrow.

made	may	more	much
make	me	most	must
man	means	mother	my
many	men	move	any word
