COLOUR

Write the names of the colours found on the colour wheel and in rainbow order. Then colour the stars to match

R		☆
O		☆
Y		☆
G		☆
B		☆
I		☆
V		☆

Put a 1 next to the primary colours.
Put a 2 next to the secondary colours

WARM AND COOL COLOURS

Warm Colours

Warm colors consist of orange, red, yellow, and combinations of these and similar colors. As the name indicates, they tend to make you think of warm things, such as sunlight and heat.

Cool Colours

Cool colors are typified by blue, green, and light purple. They can calm and soothe. Where warm colors remind you of heat and sunshine, cool colors remind you of water and sky, even ice and snow.

Sort the colours on the colour wheel into Warm and Cool colours

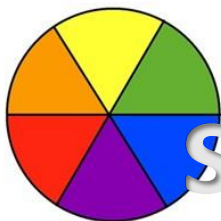

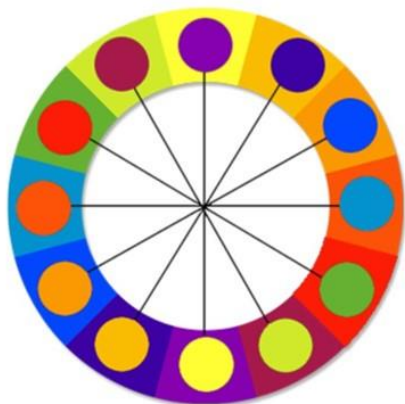

WARM			
COOL

COMPLIMENTARY COLOURS

Complimentary colours are opposites on the colour wheel.

Use the wheel below to help you colour the opposites

	Yellow	Red	Blue
Primary colour			
Complimentary colour			

ANALOGOUS COLOURS

Analogous colours are next to each other on the colour wheel.

Use the colour wheel to colour the analogous colours.

	Yellow	Red	Blue
Primary colour			
Analogous colour
