How To Play

©2016 Sarah Magallano

How to Play: To play, students must get a “Bingo”. Teacher chooses one of the following:

- **Traditional:** Students must cover three squares in a row to win.
- **Black Out:** Students must cover all the squares to win.
- **Four Corners:** Students must cover only the four corner squares of their game board to win.
- **Letter “T”:** Students must cover the top three and the middle squares three to win.
- **Letter “X”:** Students must cover the four corners AND the middle square to win.
- **Bottom Row:** Students must cover the bottom three squares to win.

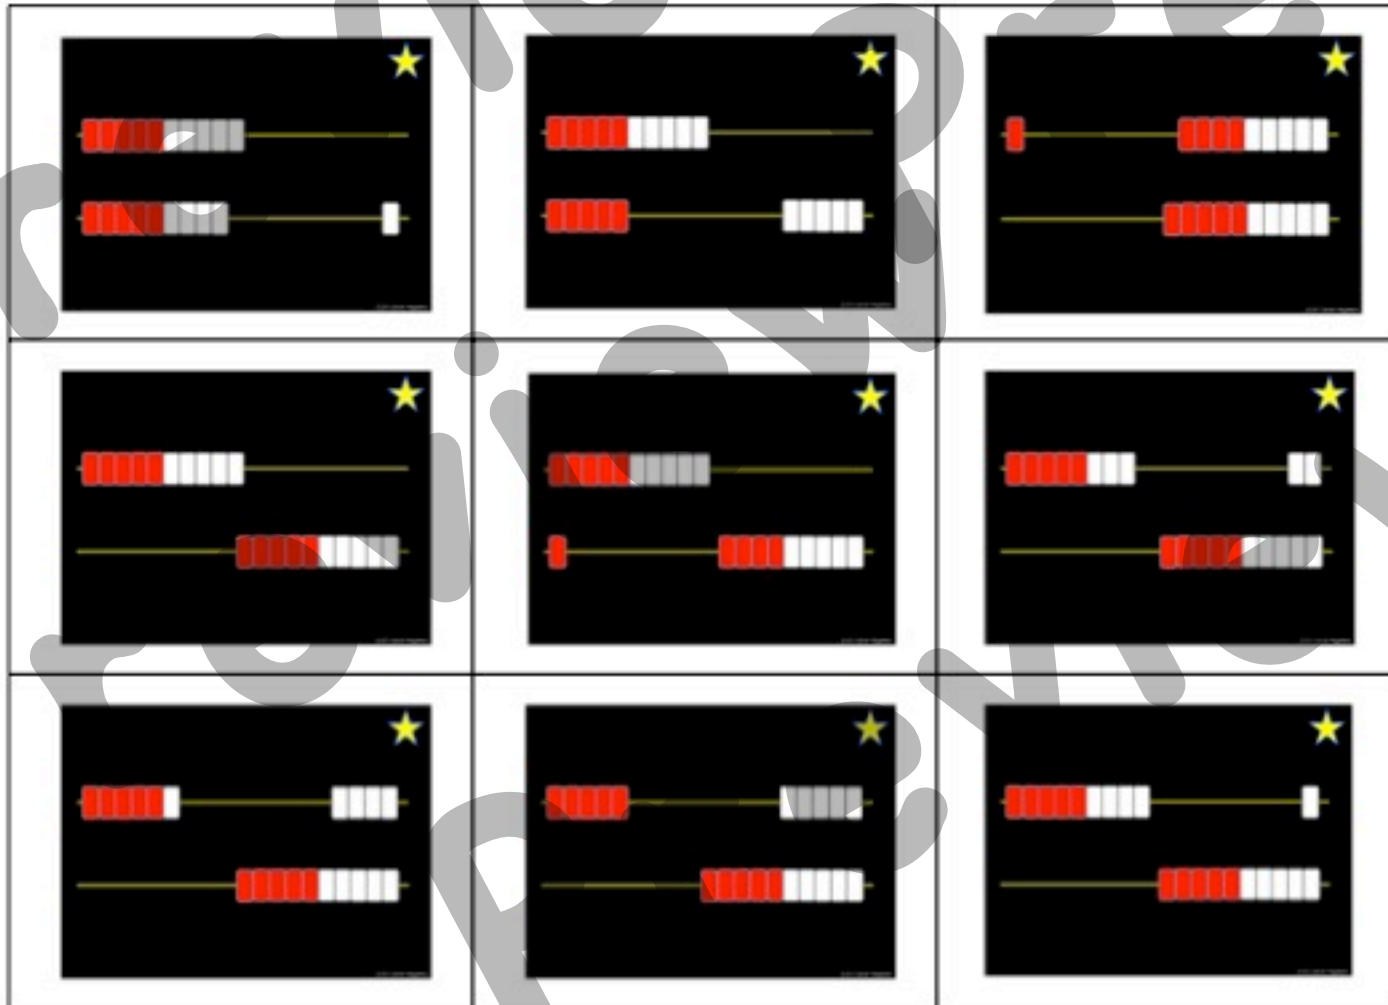

Then...

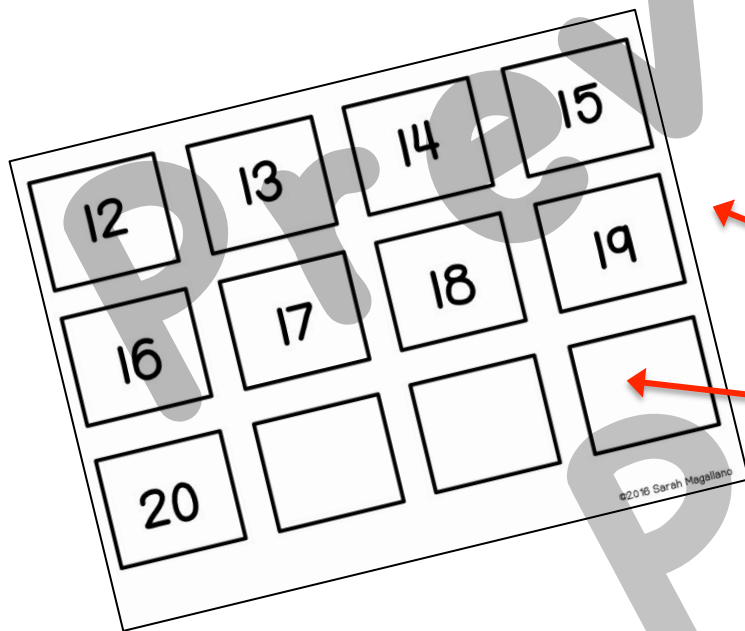

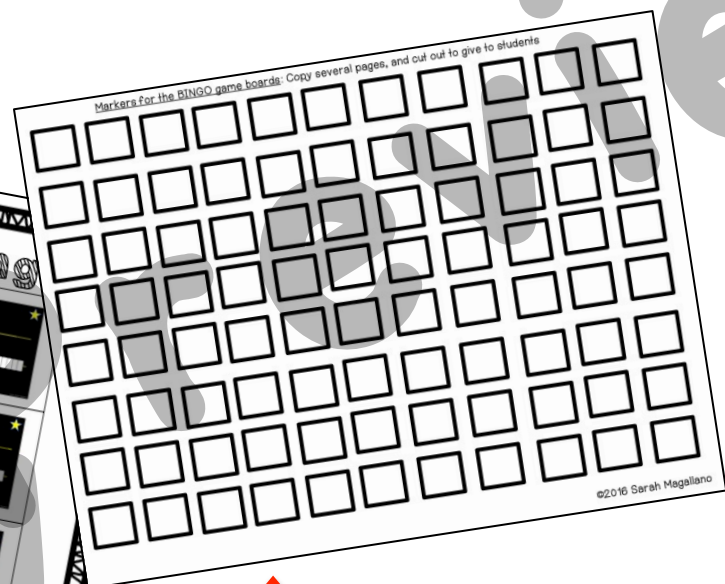

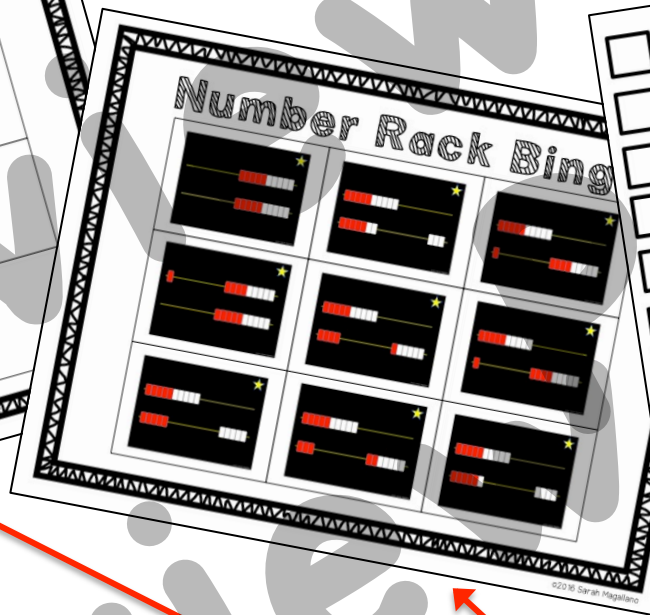

Teacher uses the cards on pages 34 and 35 to call out the numbers in a random order. Students then use their markers (see page 36) to cover the numbers called.

Note: The letters (a-g) on the top of the BINGO cards signify the cards are the same. The number represents how many BINGO cards there are (29).

Number Rack Bingo

14d
