

ALPHABET PRACTICE

MINI BOOKS

These easy prep, fold and go, activity books are a great addition to any class learning the letters of the alphabet! Once printed, fold the paper hamburger style (horizontally) and then fold in half again vertically. Easy peasy!

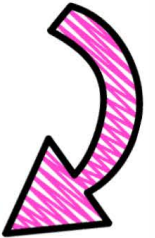

My Mini Book

Aa

Name: _____

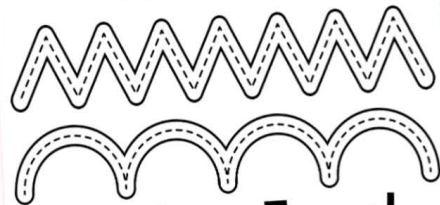

This is the front cover of the mini books. Students can color the uppercase and lowercase letters. To add in some fine motor practice, students can fill in the letters with mini stickers or use Q-tips and paint and dot it out!

When students open to the first page of their mini books, they will warmup their hands to prepare to write! They will trace the lines and then move down to rainbow trace the uppercase and lowercase letters. This is great practice to get students familiar with the path of motion for the uppercase and lowercase letters..

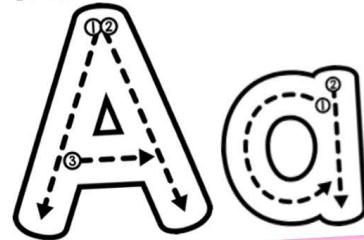

Let's Warmup!

Trace the lines to get your hand ready to write.

Rainbow Trace!

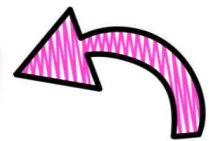

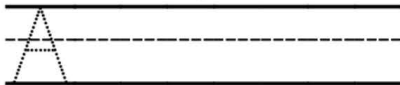

Once students have warmed up for writing, they will practice writing the uppercase and lowercase letters by tracing. Then, they will have the opportunity to practice writing the letters on their own.

Trace!

Write on your own!

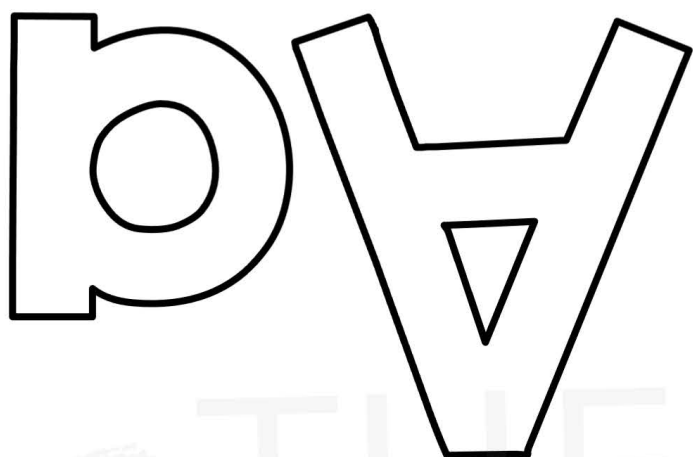

Color by code!

Color to reveal the picture. Then color the picture using real life colors.

On the back, students will identify between the uppercase and lowercase letter and color by code! Once they have colored by code, a picture that begins with that letter will be revealed and they can use real life colors to finish off their picture.
