How to Use

- The holiday season is a great time to teach about various cultures, traditions and religions. This resource provides opportunities to learn about, discuss, and celebrate **Hanukkah** in your classroom. It includes seven forest animal crafts, along with writing project sheets.
- Depending on the grade and skill level of your students, **craft projects** can be completed in a whole group, or small group setting, with partners, in centers, or independently. You can meaningfully display them on your bulletin board, door, classroom, or hallway! You may use these crafts as an opportunity to discuss important **Hanukkah symbols** with your students.

How to Make

- 1) Print out the animal craft of your choice on white or colored paper. You may also print on card stock for durability.
 - 2) If you have chosen to print on white paper / card stock, students may color, paint, or decorate their pieces.
 - 3) Students may write their name on the name piece or complete the writing prompt.
 - 4) Cut out each desired piece and set aside for assembly.
 - 5) Glue the animal of choice to the top of the name piece or writing prompt. If using more than one writing page, staple or glue the top of the pages together.
 - 6) Add your Hanukkah pieces of choice to the craft and you're done!
-
