

Sight Word Nouns

Sight Word Nouns is a fun way to help children recognize the most frequently occurring nouns automatically. This game includes cards with 95 common nouns from the Dolch sight word list. Players must correctly recognize the word to get rid of their cards. This game provides differentiated instruction for tutoring sessions, general classroom use, homeschool, and special education. Word cards were created using [Easel.ly](#) and made for dyslexic readers and students that learn differently.

Cards may also be used as flash cards or as a matching game activity. They can be combined with [my TPT Store](#) and [Fabulous Flash Card Review](#) games for double fun. See my [TPT Store](#) for all my games and sight word activities.

How to Assemble

Print 1 sheet of each color word cards and special cards. A back side is included on page 17. To make double sided cards, print page 17 on the back side of each of the card sheets. For best results, use a heavy cardstock. This will make the cards durable and prevent bleed through. Cut cards apart. If desired, laminate for longer life.

How to Play

Shuffle Cards

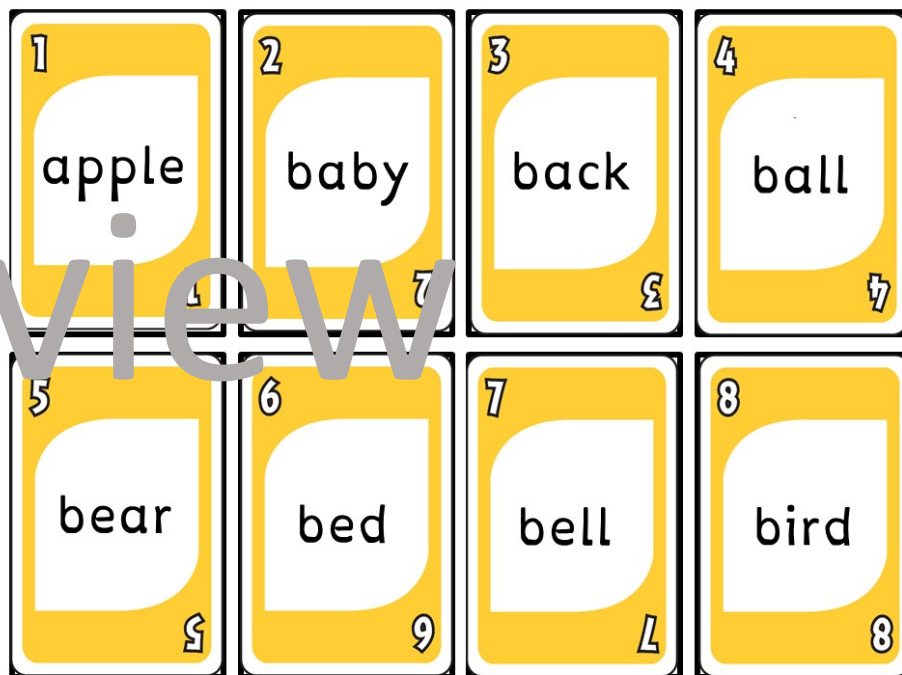

Deal 7 cards to each player. For two players you can remove the reverse cards.

Place the remaining cards face down. Turn over the top card on the pile to start the discard pile. (Note: If the first card turned over is a special card, return it to the pile and start with a letter card) The first player looks at their cards and must put down a card that matches the card on top of the discard pile in either color or number. For example, if the top card is a yellow 5, the player may put down any yellow card or any color 5 card. They may also use special cards, see below. The player must correctly read the word in order to discard their card.

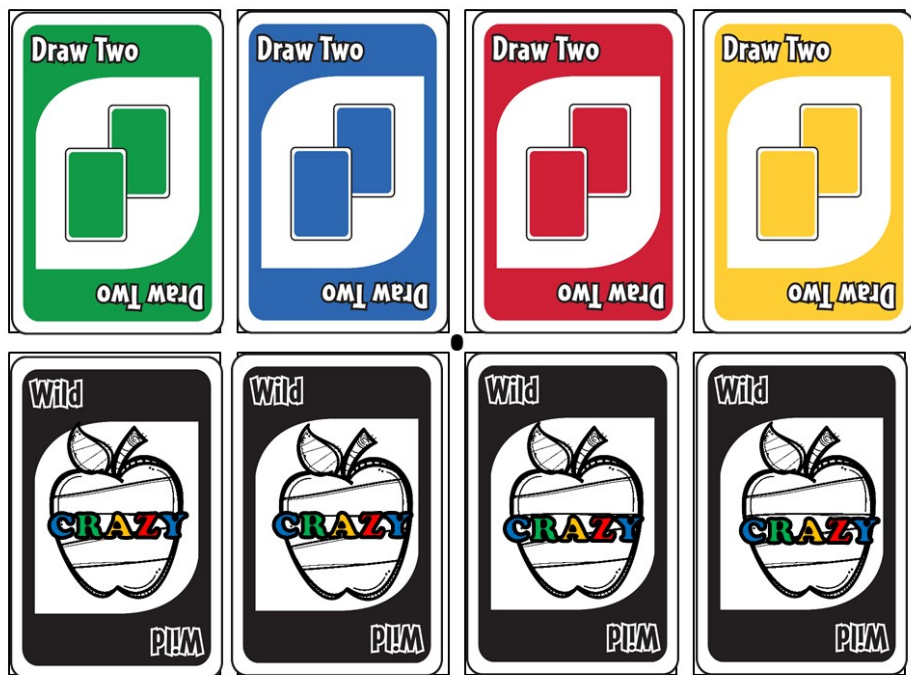

If a player does not have any matches, they must take a card from the pile.

The first player to get rid of all their cards wins.
