Piecework

Michael gets compensated based on the number of lawns he mows on the piecework scale. If he mowed 38 lawns this year, how much money will he make?

1-19	9.50
20-30	11.00
31-40	15.00
41+	17.25

$$19(9.50)=180.50$$

$$10(11)=110$$

$$7(15)=105$$

$$180.50+110+105=395.50$$

Michael made \$395.50
