leaving. What is the probability that he will

Welding

Terrance is fitting piping in a hexagonal configuration. There
equal length pieces that connect at the points. If the interior an
a hexagon equal 720 degrees, how many degrees are in each int
angle of the shape?

Answer:

Chef

Chef Clarence is making taco stew for 24 people
luncheon. His recipe yields 8 servings and calls for 2
of ground beef and 4 cans of beans. How many pounds
and cans of beans will he need to make?
