

PHONEME SUBSTITUTION

BUILD AND CLIP

MODERATE SUPPORT

25 CARDS IN EACH LEVEL!

PHONEME SUBSTITUTION SET UP AND ORGANIZATION

CHOOSE WHICH LEVEL OF PHONEME SUBSTITUTION CARDS YOU WANT TO USE WITH YOUR STUDENTS. PRINT USING THE "SCALE TO FIT" OPTION. I LOVE TO PRINT CARDS ON CARDSTOCK AND LAMINATE FOR DURABILITY. TEACHER TIP: CUT OUT CARDS PRIOR TO LAMINATING AND CUT UNLAMINATED CARDS TO CREATE A HOPE SEAL AROUND EACH CARD.

IF USING THE FULL SIZE PAGES, I LOVE TO LOCK THEM IN A DURABLE CONTAINER THAT HOLDS ALL THE MATERIALS NEEDED AND STUDENTS CAN GROW AND SO THE BEST OPTION POSSIBLE. PROJECT CUBES ARE PERFECT. YOU CAN FIND THEM AT AMAZON AND/OR MICHAEL'S.

IF USING THE SMALL TASK CARDS, THE STAMPY TOOL PHOTO AND GRIPY GRIPPER IS A GREAT OPTION ESPECIALLY WHEN YOU WANT ALL TASK CARDS SET. I HAVE THE RAINBOW CONTAINERS BECAUSE IT ADDS SOME COLOR TO THE MIX. BINS CAN ALSO BE FOUND AT AMAZON AND/OR MICHAEL'S.

FOR PHONEME SUBSTITUTION BUILD AND CLIP, I HAVE FOUND THAT MAGNET LETTERS WORK WELL WITH THE FULL SIZE CARDS AND LITTER TRAYS WORK BEST FOR THE SMALL SIZE TASK CARDS. YOU WILL ALSO NEED SOME CLIPPING TOOLS SO STUDENTS CAN CLIP A DOT TO SHOW WHAT SOUND CHANGED.

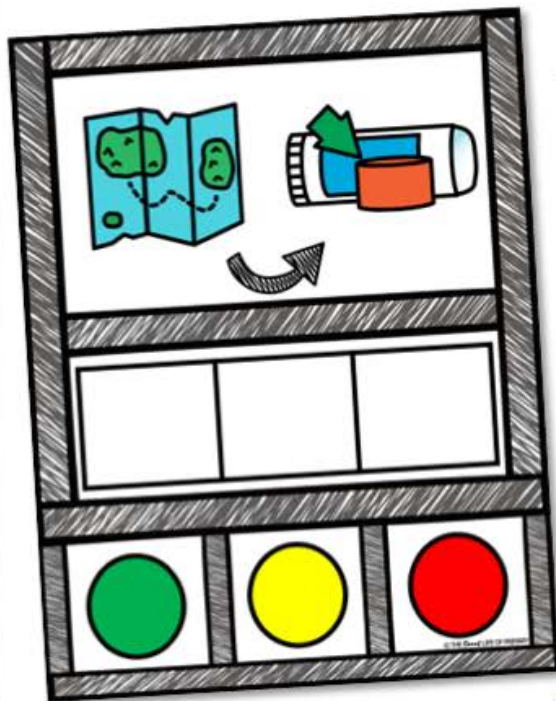

COMES WITH A
SETUP AND
ORGANIZATION
