When students open the home page, they will see a map of Madrid. Clicking on the areas shaded below (they will not be shaded when students open the map, but will be shaded as they mouse over the clickable areas) - will open the pages with the clues.

They will also see a form with the spaces to enter the codes to unlock the locks. They should be careful to enter their answers exactly as requested (ALL CAPITALS) as the codes will not work otherwise.

Gran Vía is a beautiful boulevard through the center of Madrid. It is known for its beauty as a largely pedestrian walkway, lined with trees and stores. But it wasn't always respected - many people mocked the long time it took to finish the project. Eventually it was finished and is now a place filled with interesting buildings and scenery.
