Christmas Bingo & Games

Bingo Variations

- Play all winning patterns at one time. There can be different prizes for each pattern. If a player gets one pattern they can call bingo or wait until they get another pattern. For example, a player who gets a horizontal pattern can call bingo or wait until they get blackout or a T bingo.
- Use the question/trivia cards to make the game more challenging. The caller reads the card and players place a marker on the picture that completes the sentence or answers the question.

Go Santa Game Directions

- Print two sets of calling cards, you will need two images to match up. Remove the "wild santa" cards. Shuffle the cards.
- Deal 5 cards to each player (a group of 2, 3 or 4 people).
- Place the remaining cards face down between the players in "Santa's sack" pile. Players hold their cards so they are able to see them, but no one else can.
- All of the players put any pairs they happen to have in their hand down and earn a point for each pair (two of the same picture).
- Starting with the youngest player and moving clockwise, the player asks "Do you have a _____?" The card requested should be one the player has in their hand.
- If the opponent has the card, they must give it to the player who earns a point for making a match. If the opponent does not have the card they say "Go to Santa!"
- The player must then pick a single card from the face down Santa's sack pile of cards. If they make a pair, they place it down and earn a point.
- If a player runs out of cards, they pick five from the pile.
- The game is won by the person with the most points (pairs of cards) when all the cards are gone.
- A more challenging version can be played by matching a picture card and a question card.
