credits, & more!

| Our Interactions with Earth's Spheres |                                            |        |                                                                                                                                                                                                                                                 |
|---------------------------------------|--------------------------------------------|--------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                       | Question                                   | Answer | Directions: You, as part of the biosphere, interact with Earth's Spheres in many ways. Identify which sphere you are interacting with and place it in the answer box. If correct, a star will appear and part of the picture will be displayed. |
| 1                                     | You pet a giraffe at the zoo.              |        |                                                                                                                                                             |
| 2                                     | Your skin is protected by the Ozone Layer. |        |                                                                                                                                                                                                                                                 |
| 3                                     | You walk on limestone floor tiles.         |        |                                                                                                                                                                                                                                                 |
| 4                                     | You splash in a puddle.                    |        |                                                                                                                                                                                                                                                 |
| 5                                     | You see a tornado in a farm field.         |        |                                                                                                                                                                                                                                                 |
| 6                                     | You swim in a rivier.                      |        |                                                                                                                                                                                                                                                 |
| 7                                     | You climb a maple tree.                    |        |                                                                                                                                                                                                                                                 |
| 8                                     | You take care of your pet bunny.           |        |                                                                                                                                                                                                                                                 |
| 9                                     | You breathe in air.                        |        |                                                                                                                                                                                                                                                 |
| 10                                    | You have house plants.                     |        |                                                                                                                                                                                                                                                 |
|                                       |                                            |        |                                                                                                                                                                                                                                                 |
