HOW TO MAKE Earth Day Tree Craft

What you'll need:

- Cardstock / paper
- Scissors
- Crayons / markers
- Glue

This craft has been differentiated to suit your students' individual needs. Start by assessing your students' needs and **choose** the most appropriate "page 3" for each student. They can simply cut out pre-labeled hearts, draw pictures, trace words, write their own ideas etc.

Once you have chosen the appropriate "page 3" hearts for your students, **print** "pages 1-3" onto white or colored cardstock. If printing onto white cardstock, students may color each of their craft pieces.
