Fun!

BINGO

WHAT YOU NEED TO PLAY

- Each student needs a bingo card.
- Each student needs bingo markers. Some suggestions for markers include commercial bingo markers, mini erasers, coins, buttons, beans, candy, counters, or any small object. You can also use dry erase markers or bingo markers on laminated cards.

HOW TO PLAY

- Review and practice the words before playing.
- Place the calling cards in a bag or jar.
- Another option is to give each player a set of calling cards to cut apart. When a word is called, players must find the calling card and match it to the word on their Bingo card.
- Each student gets a bingo card.
- The caller picks a calling card and says the word. Players should cover the word that they hear.
- See page 4 for ways to win the game.

ADDITIONAL ACTIVITIES

- After playing, have the students cut out each square for flashcards.
- Use the cut-out squares for a memory matching game.

TIP
Laminate and use dry-erase markers if you want to reuse the bingo cards.

MORE SIGHT WORD RESOURCES
If you need more sight word resources, see the **Super Sight Word Workbook** for over 700 pages of practice. Also check out the resources below.

WAYS TO WIN

Choose one based on students' level and time available.

4 in a Row

Once a student's card has a line of four markers in a column, row, or diagonal, the student should say "bingo." Check the card to verify that it is a winner. If desired, continue the game until more students have four markers in a line.

4 Corners

Once a student's card has four markers in each of the four corners the student should say "bingo."

Inside Square

Once a student's card has four markers in the four inside boxes, the student should say "bingo."

Outside Square

Once a student's card has four markers in the four outside boxes, the student should say "bingo."

Bam and Free

For some extra fun, add the bam and free calling cards into the mix.

When a bam card is chosen, players must remove a chip from their bingo board. It can be any chip the player chooses, or the caller can decide on a specific sound.

For example:
"Bam, remove one chip for the sound /b/."

FREE

When a free card is chosen, players may place a chip on any square.

Blackout

Once a student's card has all squares covered, the student should say "bingo."

EDITABLE BINGO

HOW TO EDIT

- Make sure you are using Adobe Reader. It is a free app available at <https://www.adobe.com/reader>
- Type the words you would like on the bingo cards and calling cards in the blue boxes on page 6.
- You do not need to edit any other pages. They will change when you type the word in the boxes on page 6.
- This will create a set of 30 unique bingo cards with the words on them and a set of calling cards.
- You will still see blue boxes on the worksheet. These will not print out.

Add your words and print. It's easy!!!!

CREATE YOUR OWN BINGO

Add your words to the boxes. They will only appear on the bingo cards. This will create 30 unique cards with the words below and a set of calling cards.
