KINDERGARTEN WORKBOOK

Name: _____
Alphabet Practice

Color it:

Name: _____
Which is shortest?

Circle the shortest one.

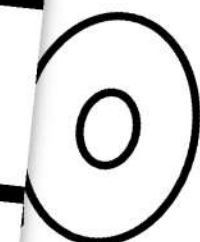

Name: _____
Ending Sound Spot

Dot or color the ending sound.

Name: _____
Place Value 1-20

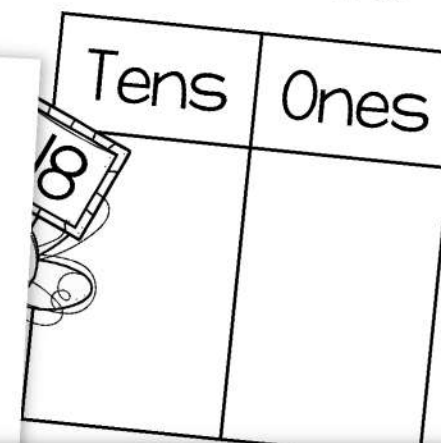

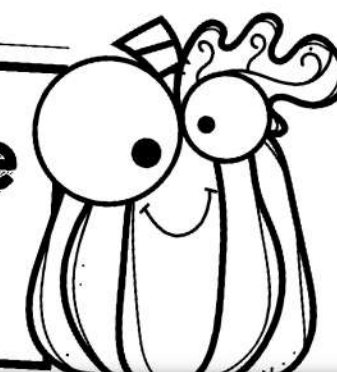

Draw ten sticks and ones to represent the numbers.

Tens Ones

Name: _____
Thanksgiving Narrative Writing

Tell about a time you celebrated Thanksgiving. Where did you go? What did you do?

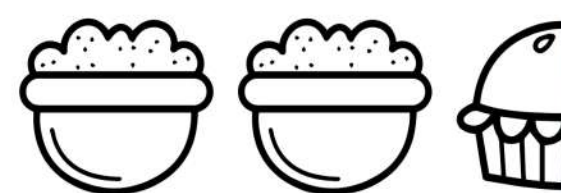

Name: _____
Counting Ten Frames

Write how many are shown on the ten frame.

Name: _____
Thanksgiving Patterns

Cut & paste the pictures to complete the patterns.

Included Skills WHY ARE WE LEARNING THIS?

- Ending Sounds- Recognizing ending sounds is an important part of phonemic awareness, which is the ability to hear and manipulate individual sounds in words. When children can identify the final sounds in words, they strengthen their ability to decode words, spell correctly, and recognize word patterns. This skill is essential for first grade, where they will blend and segment words more independently to become confident readers and writers.
- Addition & Subtraction with Number Lines- Using a number line helps children develop number sense by visually showing how numbers increase as they move forward. This strategy builds a strong understanding of addition by allowing children to "jump" from one number to the next, reinforcing counting skills and mental math. In first grade, number lines are an important tool for solving more complex addition and subtraction problems efficiently.

Included Skills WHY ARE WE LEARNING THIS?

- Ten Frames- Ten Frames help children build a strong understanding of numbers and how they relate to ten, which is a key concept in early math. By using Ten Frames, children learn to quickly recognize numbers, develop subitizing skills, and understand addition and subtraction in a visual way. This foundation is crucial for first grade, where they will use ten as a building block for place value, addition, and mental math strategies.
- Ordering Objects- Comparing and ordering objects by height and length helps children develop early measurement and comparison skills. When kids practice identifying the tallest and shortest objects, they build observation skills, learn for size, and this skill is essential for first grade where they will explore measurement using rulers and this with

All About Thanksgiving Writing

©All Rights Reserved 2024: ABEduventures

Included Skills WHY ARE WE LEARNING THIS?

- Letter Recognition- Recognizing letters is the foundation of reading and writing. When children can quickly identify letters by name, they are better prepared to connect letters to sounds, which is essential for decoding words. Strong letter recognition in kindergarten leads to smoother reading development in first grade.
- Patterns- Recognizing and creating patterns builds early math skills and logical thinking. Patterns help children predict what comes next, which strengthens their ability to recognize sequences in numbers and letters. In first grade, this skill supports problem-solving in math and reading comprehension.
- Beginning Sound Practice- Understanding the sounds that letters make is a critical step in learning to read. Beginning sound practice helps children develop phonemic awareness, which allows them to blend sounds into words. This skill makes it easier for them to read and spell in first grade.
