Drag and Drop the words into their correct boxes

This resource is designed to captivate your students' attention as they actively participate in sorting words, promoting collaboration, and reinforcing essential language skills.

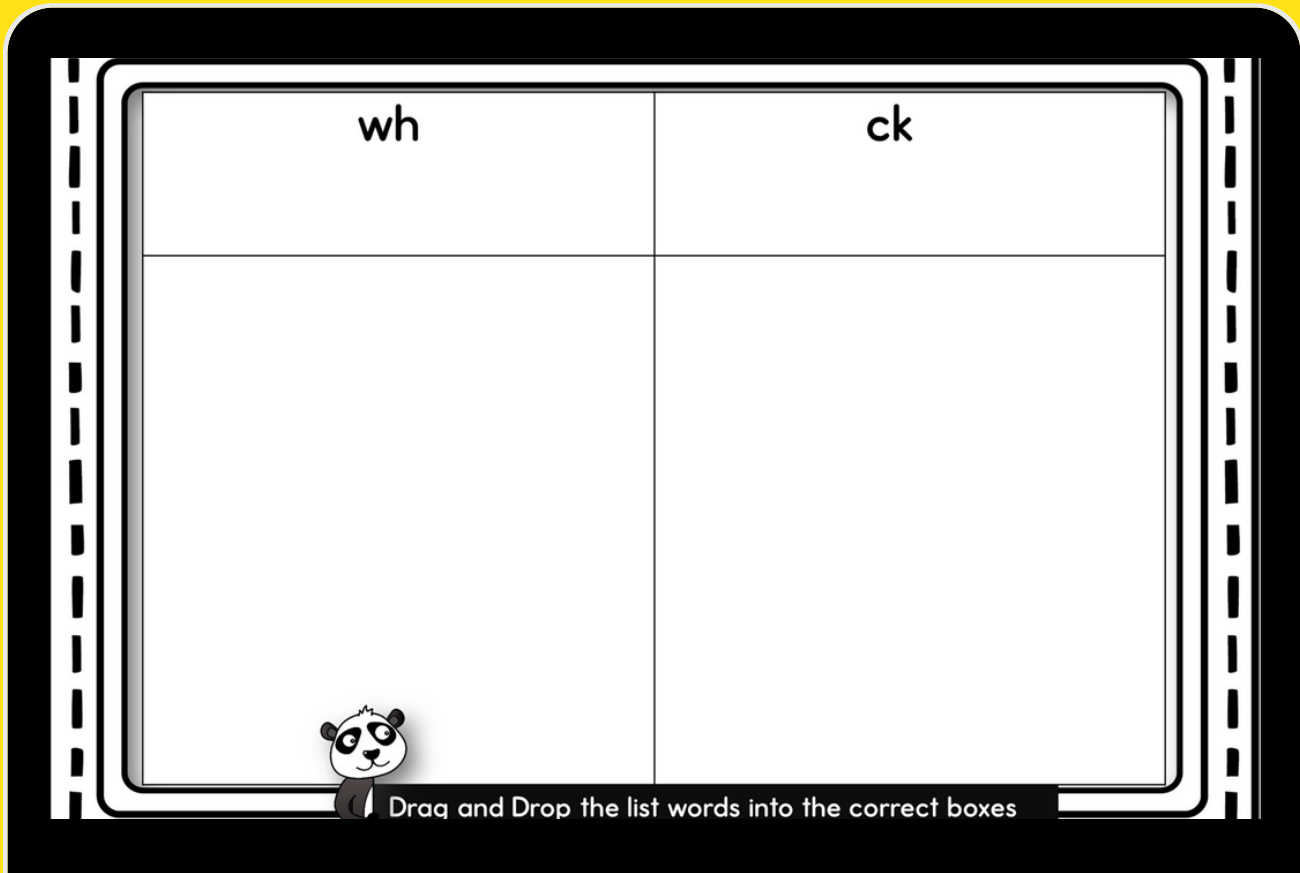

-  **Presentation Mode Magic**: Dive into an immersive learning experience with our activity designed specifically for presentation mode. Students can interact directly with the content by dragging and dropping words into designated columns.
-  **Hands-On Learning**: Foster a deeper understanding of vocabulary through hands-on sorting. The interactive nature of the activity encourages active participation and enhances retention.

48 Sorting Sheets

 **Student Interaction: Encourage collaboration by allowing students to swap and check each other's work directly within the presentation. This not only promotes teamwork but also empowers students to take ownership of their learning.**

The image shows a digital interface for a word sorting activity. It features a large rectangular area divided into four quadrants by a horizontal and a vertical line. The top-left quadrant is labeled 'wh' and the top-right quadrant is labeled 'ck'. The bottom two quadrants are empty. A small cartoon panda character is positioned at the bottom center of the interface. Below the panda, there is a text box that reads 'Drag and Drop the list words into the correct boxes'. The entire interface is framed by a thick black border with dashed white lines on the left and right sides.
