Consonant Blends

BINGO

► Fun extra calling cards to add a twist to traditional bingo.

► Add these cards and players must add or subtract bingo chips for a challenge.

Consonant Blends BINGO

► Instructions

► List of words

Ways to Win

Choose one based on students' level and time available.

4 in a Row

Once a student's card has a line of four markers in a column, row, or diagonal, the student should say "bingo." Check the card to verify that it is a winner. If desired, continue the game until more students have four markers in a line.

4 Corners

Once a student's card has four markers in each of the four corners the student should say "bingo."

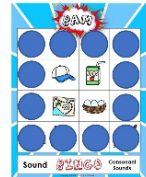

Inside Square

Once a student's card has four markers the four inside boxes, the student should say "bingo."

Outside Square

Once a student's card has markers on the outside boxes, the student should say "bingo."

Bam and Free

For some extra fun, add the bam and free calling cards into the mix.

When a bam card is chosen, players must remove a chip from their bingo board. It can be any chip the player chooses, or the caller can decide on a specific sound.

For example:

"Bam, remove one chip for the sound /b/."

When a free card is chosen, players may place a chip on any square.

GO

► For example, students could cover the picture of the blocks or the black crayon.

► **Optional:** Have the players fill in the blend at the beginning of the words as they are called. This is a great way to practice spelling and decoding.

► Continue to play until a player wins. See page 4 for multiple ways to win.

► The game can also be played using the word list instead of the calling cards. The caller should pick words from this list for players to search for.

"Find the picture of the globe."

► Players cover the globe. They can also write the correct blend under the picture.

This option may be useful for students who have difficulty with this skill.

ADDITIONAL ACTIVITIES

► The students fill in the correct blend for each picture on the picture cards.

► After playing, have the students cut out each square and sort them by beginning blend sound.

► Use the cut-out squares for a memory matching game.

..TIP
Laminate and use dry erase markers if you want to reuse the bingo cards.
