QUESTION 15

Which point is located at $(-5, -2)$?

- (A) Point A
- (B) Point K
- (C) Point P
- (D) Point S

Name: _____

TOPIC Question Trail

Date: _____

Task: Pick a question to start on. Solve and find the answer on the multiple choice section. The multiple choice answer will send you to another question. If you return to a card you've already done, and you haven't answered all 15 questions, go back and check your work. Write your question path here. Use the back of this paper for scratch paper to show your work if needed.
