

VALENTINE ESCAPE ROOM

Cupid's Lost Arrows: The Ultimate Valentine's Rescue

WITH A
BONUS
CRAFT

CUPID'S LOST ARROWS

It's almost Valentine's Day, but disaster! Cupid's magical quiver tipped over, and arrows have scattered all over the land.

Each arrow represents something that is Valentine's Day magical:

Friendship
Kindness
Laughter
Teamwork
Love
Joy
Imagination
Courage
Patience
Gratitude

Use the secret alphabet picture, find the match on the line above that picture, number

HELP CUPID FIND HIS LOST ARROWS

The image is a collage featuring a completed craft project and a worksheet. The craft is a yellow pencil with a heart-shaped eraser at the bottom that has the text "You're Sharp!" written on it. At the top of the pencil, there is a cluster of three pink, glittery hearts. The worksheet, titled "CUPID'S ARROW PENCIL CRAFT DIRECTIONS", lists materials needed: a pencil (any color), red or pink paper, glue, and two small hearts. The instructions describe how to attach the hearts to the pencil. A "Teacher Tip" suggests writing a message on the arrow and giving it to a friend. The copyright notice at the bottom reads "Copyright © 2026 Tammy's Toolbox, LLC".

CUPID'S ARROW

PENCIL CRAFT DIRECTIONS

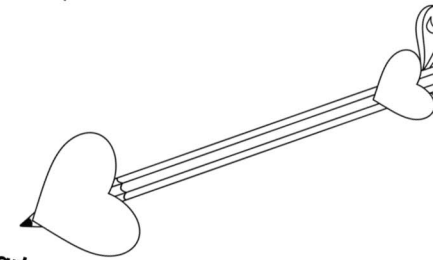

Will NEED:
pencil (red, pink, or any color you like)
paper

YOU WILL NEED:

- ☐ 1 pencil (red ink)
- ☐ Red ink

- YOU WILL NEED:**
- ☐ 1 pencil (red preferred)
 - ☐ Red paint (red preferred)
 - ☐ Paper (any color you like)
- 
- A close-up photograph of several pink heart-shaped cutouts with a glittery texture, resting on a light-colored wooden surface. The hearts are slightly out of focus, with one in the foreground being sharper.

rs, or ribbon

draw **two small hearts** (these will be the arrow heart (this will be the arrow "tip").

add messages like "You're Sharp!" or "On
add glitter or stickers for extra sparkle.

to the **sharp end** of your pencil, pointing

ts on the **eraser end** of the pencil to

ew minutes to let the glue dry.

Teacher Tip: These make adorable Valentine cards for Valentine's Day! ❤️

Teacher Tip: These make adorable Valentine cards — you can write short notes on the hearts or tie a small tag to the pencil that says, "You're on point, Valentine!"

PRINTABLE DOWNLOAD

F.A.Q.

How long does this activity take to complete?

It really depends on a lot of things. Estimated completion time is 45+ minutes but it's based on the kids' puzzle skills, group size, and age. The craft activity will take longer and could be completed in 2 sittings.

How many kids can play at once?

Kids can play individually, with friends, or in large groups. There really is no limit to the number of players.

What if the kids get stuck on one of the puzzles?

First off, let them think for a bit! This is where critical thinking skills come in. If they get stuck, have them ask other students or an adult for hints. Hint cards for 8 of the puzzles are included to help guide adults and students.

Where do kids start?

Kids can start on any puzzles and complete the puzzles in ANY order!

How do you know if their answers are correct?

There is an answer key provided in the PDF.

How do I set up the activity?

Just print and play! Everything you need is included in your download. You don't need locks, envelopes, or special equipment. You can hang or hide the puzzles or just spread them out on the table.

Do I have to print out the game materials for every kid?

Nope! You ONLY have to print out one set of puzzles. Print one escape task map for each group. Just one set of the actual puzzles is all you need! If you want students to write on the worksheets, then print a set for each group or student.

Hint Cards

These provide additional information on solving puzzles.

Task #1 CRYPTOGRAM

Use the cryptogram decoder to solve the clue. Your job is to determine which letter each image represents. Each symbol or image represents a letter from A through Z.

Task #4 MISSING X

Read through the sentence and determine which letters are marked with an X. Then, unscramble the word using the decoded letters.

Task #6 ALPHA COUNT

If the clue says A+3, use the alphabet to determine which letter is three spaces AFTER A (A+3=D). If the clue is Z-2, use the alphabet to determine which letter is two spaces BEFORE the letter Z (Z-2=X). Do not count the letter you start on.

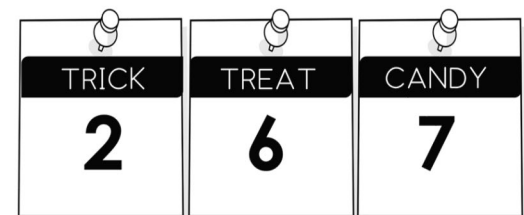

Task #5 POLYBIUS

You will need to look at the coordinates listed in the question. Next, find where those numbers and letters line up or "meet" on the grid. Once you know the IMAGE, look to the right to see what letter that image represents.
