TASK 6 UP

Perspective

FINAL EXERCISE "THE BOX"

Find a shoe box (but strictly not a shoe box, approximately the same size). And draw it from different angles and your own perspective.

- A Cavalier Perspective
- An Axonometric or Isometric Perspective
- A Linear Perspective with 1 Vanishing Point
- A Linear Perspective with 2 Vanishing Points
- A Linear Perspective with 3 Vanishing Points

You can make it as simple or as complex as you want.

Hint: There's a trick to it.

If you succeed, you must prove it by making pictures of the box from these views, WITH vanishing lines, if applicable.
