Teach Addition & Subtraction while also Teaching Financial Literacy!

Teaches **fixed vs. variable expenses**
and the purposes and functions of
banks.

Each set can be started with 3 different bank account balances, so that you **can use each set multiple times.**

[illegible]

Life Happens Scenario 1

1 Spin the spinner to find the starting balance of your checking account.

Life Happens Scenario 1

2 It's payday!!!! Your paycheck, for \$3,745.16 was automatically deposited into your bank account. Make sure you record that deposit in your check register.

Life Happens Scenario 1

3 You set up an automatic transfer between your checking and savings accounts. Whenever your paycheck is deposited into your checking account, \$350 is automatically transferred to your savings account. Make sure you record the withdrawal.

Life Happens Scenario 1

4 Now it is time to pay some bills on-line through your bank. Your bank transfers money or sends checks to you when you input the amount on their website. (Note: The spinner in the background shows values \$5,992, \$2,546, and \$8,301.)

Life Happens Scenario 1

5 #1 Mortgage When you bought your house 3 years ago, you took out a loan from Frost Bank. You make a monthly mortgage payment to pay off the cost of your house plus interest. You

Life Happens Scenario 1

6 Bill #2 Water Your water bill changes every month. This month your bill was for \$128.09. That bill is paid to Texas H2O. Record the transaction.

Life Happens Scenario 1

7 Circle your ending account balance on your check register.

Life Happens Scenario 1

8 You took out a loan from RBCFCU when you bought your car. You make a monthly payment to pay the interest. You

Life Happens Scenario 1

9 Your electric company, Texas Electric, averages your usage and charges you the same amount every month. Your electric bill is \$178.00. Make sure you record the transaction.

Life Happens Scenario 1

10 You input the amount of your withdrawal on the website. (Note: The spinner in the background shows values \$5,992, \$2,546, and \$8,301.)
