CULINARY ARTS: FRUIT IDENTIFICATION cut & paste activity 

Task: Cut out the workstation positions and paste them in the box under the correct duty description.

A spiky oval fruit. It is orange with a thick skin. It has a mild and slightly sweet taste.	About the size of an egg, this green fruit with black seeds and fuzzy brown skin has a slightly acidic, yet sweet and tangy taste.	This small fruit is a deep round purple shape, is native to America and is popular in jams and jellies.	Bright red in color, this berry is the fruit of an aquatic plants and is a common America side dish at Thanksgiving.	This round mahogany-red fruit has a sweet-tart flavor and a small seed in the center. This fruit is great eaten fresh or cooked in desserts.
This iconic fruit in the United States has a thin dark red skin and heart-shaped body. It's flesh provides a crispy refreshing bite.	Grown primarily in California. This fruit has a slightly thicker skin which makes it easier to peel the rind. It has a sweet tart juicy flavor	Crunchy, tart and slightly gritty in texture, this fruit typically has a yellow skin with red blush and ivory flesh.	This round fruit has a red husk and holds hundreds of juicy, ruby red seeds that have a tart taste.	This tropical yellow oblong fruit is a yellow round kitchen staple. It has a starchy flavor and soft flesh.
