STUDENT BOOKLET SPECIAL NEEDS

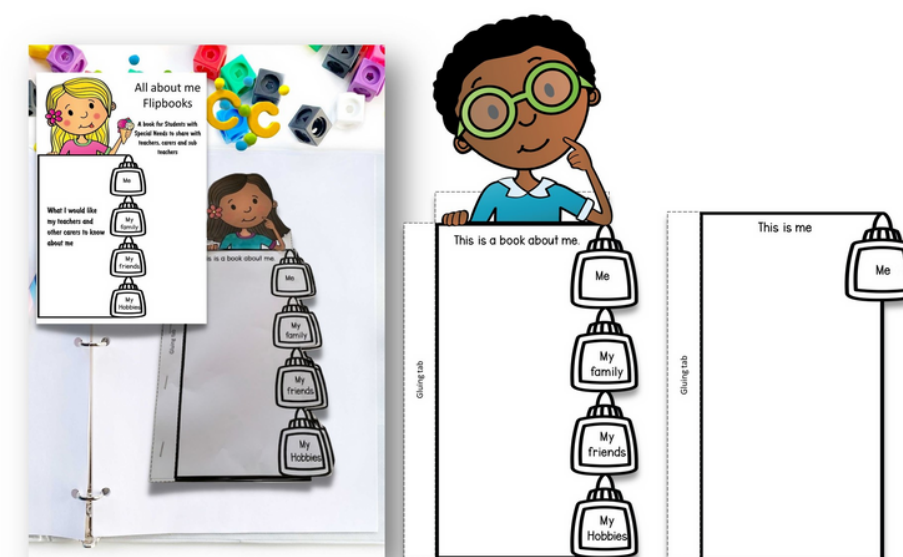

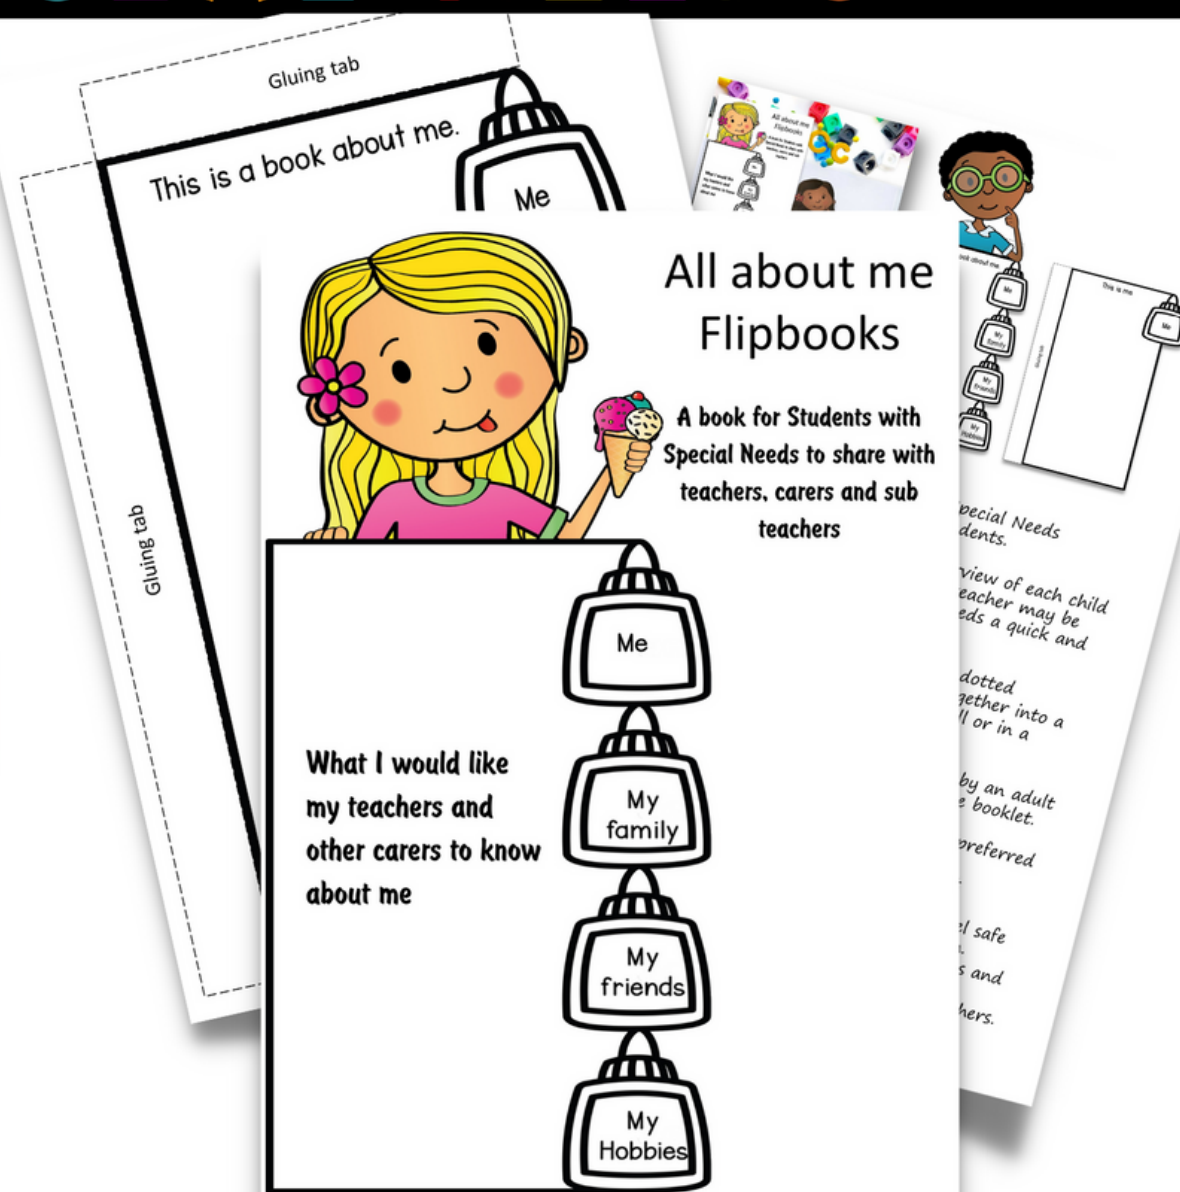

about me

my family

where i live

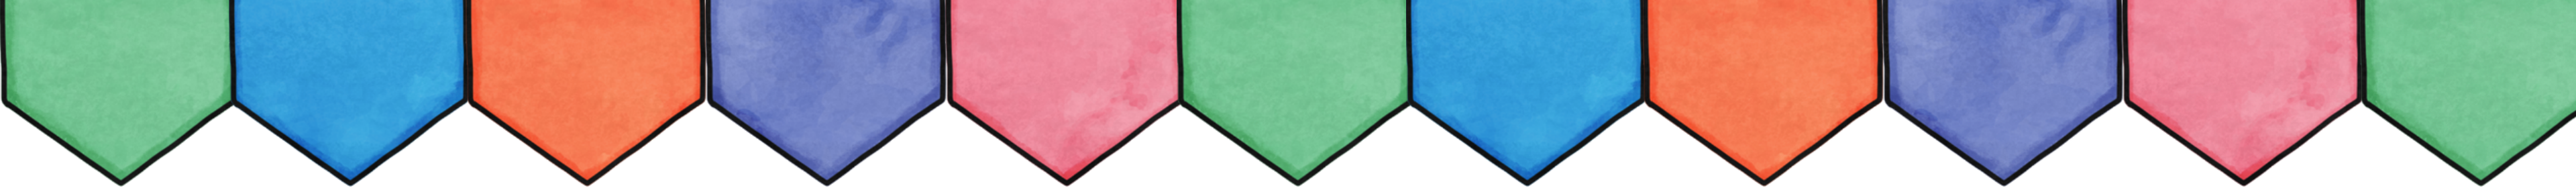

my hobbies

my friends

Teaching Notes

- These books have been designed for use with Special Needs students in mind but can be used with any students.
 - The purpose of this resource is to create an overview of each child for those instances when the regular classroom teacher may be away from class, and the sub or relief teacher needs a quick and easy overview of the students in the class.
 - Assembly is easy with students cutting around the dotted designated lines and stapling or gluing the pages together into a booklet which can be displayed on the classroom wall or in a storage box for easy access.
 - Children can have their information scribed for them by an adult or they can draw images that go with each page in the booklet.
1. All about me- what I want people to know about me (preferred name, likes- dislikes etc)
 2. My family- whatever the child would like to share about themselves and their families
 3. My Friends- Who I like to work with at school? Who I feel safe with at school? Who I like to play with at recess and lunch.
 4. My Hobbies- What I like to do outside of school, my hobbies and interests....my 'special things'
 5. Anything else I would like to share with my carers and teachers.
