RENEWABLE AND NONRENEWABLE RESOURCES Choice Board

Task: Learn more about renewable and nonrenewable resources on planet Earth. Read the different activities in each column, totally three activities to complete.

TRADING CARDS Create 3 renewable and 3 non-renewable energy source trading cards. Each card should have a front with a image/icon, name, type, and nickname/catchphrase. Back of the cards should include stats such as how it works, main uses, pros, cons, environmental impact and interest fact/stat. Write a source list.	CURRENT EVENTS REPORT Find a recent article (Within the last 3 years) about renewable or nonrenewable energy. Complete the Article Analysis page. On the back (or type) a one paragraph with your opinion on the current events, include conservation, or highlight in the article.	ENERGY Create a memo or hand written about renewable and nonrenewable resources that are used in your community.
SLIDE PRESENTATION Look at energy use around the world and create a 5-7 slide presentation. Explore at least 3 different countries and research how they use energy.	CAREER EXPLORATION Research a career related to renewable energy and complete the Career Organizer.	CHILDREN'S

SURVIVING in secondary
