HAPPY TEACHERS SAID...

Love the design of these cards, and that there is the option to have both blank and versions with images.

Having both PowerPoint and PDF versions is a bonus. So good to have editable versions.

My students loved adding their own artwork to the blank cards.

BUT WAIT...THERE'S MORE!!

This is only a small part of a larger bundle.

We have you covered for your classroom décor.

“

This pack really made my room POP. It was so easy to set them up, just print, laminate and display.
