

SET 2 - sub pack

A set of worksheets
for every day of the
month

Ideal for Supply/Substitute/Relief Teachers

Teaching Notes

Do you ever need a prep free activity in a hurry?

This resource will solve that problem.

These worksheets can be used for:

- Homework Sheets
- For Relief Teachers to take into new classes.
- For Sub Teachers or for teachers to leave for their replacement teachers to complete.
- Worksheets for students who may be taking leave from school and their parents would like them to have some work to take with them.
- Consolidate and review prior learning.

Teaching Notes

This is part of a larger series where there is a set of activities and warm ups covering a range of activities.

This set is written to support students in Grades 1-2 . Answers are provided for the emoji puzzles and spot the differences, however, the rest of the sheets will have varied answers amongst your students due to the open ended nature of many of them.

- Perfect for SUBSTITUTE teachers to take with them, or for the classroom teacher to leave for their students to work through.
- Absolutely NO PREP (except printing if required). A black and white version has been included for low yield printing
- These activities can be used with an interactive whiteboard using the PowerPoint provided.
- This set has been created so that the PDF can be printed back to back, two to a page or on single sheets depending on the needs of the teacher on the day.

Teaching Notes

- Ideally, these sheets are perfect to mark in class and to see which students fully understand the activity.
- Sharing stories is always a fun activity in any class. Writing and then reading your work to an audience completes the exercise, and it is also a great way for students to have a 'break' from working hand to paper.
- Number of the day encourages plenty of discussion around how to arrive at the given number . For example

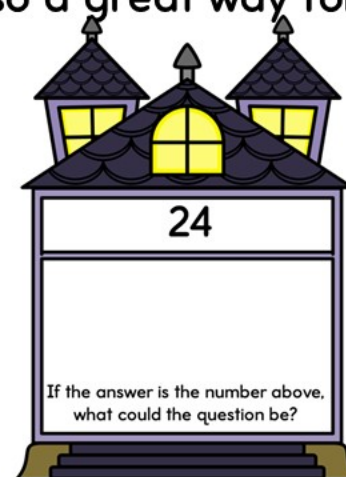

10 + 10 + 4 = 24

26 - 22 = 24

20 + 2 + 2 = 4

14 + 9 = 24

→
- Each set features a writing task, word of the day, numeracy activities, spot the difference and word work.
