How to prep:

These Cinco de Mayo activities have been **differentiated** to suit your students' individual needs. Start by assessing your students' needs and **choose** the most appropriate activities for each student. The vocabulary words come in both English and Spanish. They range in difficulty from level 1-4 and include both picture and number sets. There are also a variety of recording sheets to choose from with skills like tracing, writing, drawing etc.

Print the vocabulary cards onto cardstock for durability. If printing in black and white, students may color their cards. Laminate to use for years to come!

Cut the cards along the dotted lines to separate them.

Place them around the room at your students' eye level or lower.

Make copies of the recording sheets you wish to use and place clip boards and writing utensils at a designated area.
