

BIODIVERSITY WEBQUEST

Tasks Include:

- Defining Biodiversity
- Investigating Threats to Biodiversity
- Understanding Conservation Efforts
- Exploring Technology (STEM)

TASK 1: UNDERSTANDING BIODIVERSITY

Why is biodiversity important to ecosystems and humans?

Ecosystem Diversity:

TASK 2: IDENTIFYING THREATS

What are the main threats to biodiversity, and how do they impact ecosystems?

Link:

Threat:

Threat Impact:

TASK 4: CONSERVATION IN ACTION

What actions are being taken to protect endangered species?

Investigate real-world conservation efforts for endangered species. You will explore the challenges they face, current conservation strategies, and policies that are supporting conservation.
