

A child's drawing of a flatfish, possibly a flounder, is shown on a piece of black paper. The drawing is made with grey and black crayons or pencils, showing the fish's body, fins, and a large, open mouth with sharp teeth. Three yellow sticky notes are placed around the drawing: one on the left says "Dark Invisible Body", one on the top right says "Produce Light", and one on the bottom right says "Enormous Mouth". The background is a white surface with various colorful objects, including a bowl of beads, a pair of glasses, a notebook, and a hand holding a purple object.

REVIEWS PLATYPUS LIFE CYCLE

This is a fun activity for learning about life cycles! It was a great addition to my Science lessons!

I bought this for my daughter to work at home. She had to do a research on interesting animals, and she wanted to do it on platypus. She enjoyed learning about platypus using the different activities included.
