Rolling Cart STORAGE LABELS

These labels are created to fit the 10- 12 drawer rolling carts that many teachers use to keep organized. In the US they are available from Michael's and in Australia they can be bought in Kmart or Spotlight stores

I included some already made labels (These are just the labels that I used and thought I needed), but I have included a set of editable labels in each design. I have also included the fonts that I used in the following slide.

HOW TO USE

PDF Version: Simply download the file, print using a colored printer, cut and laminate for durability. Printing on cardstock also helps to make them last longer. Attach your signs to the drawers using double sided tape, glue gun or blutak. In some trolley designs, you may need to put a hole in the sign for the drawer knob to be reattached after the sign has been applied.

How to Edit the Power Point version

Once unzipped from the download file, open the PowerPoint and in order to use the same font it must be installed onto your machine. A set of blanks is provided for you to create an entire set using the font of your choice. Simply duplicate the slides and edit the text boxes with your desired fonts and labels. You can bold your font, increase or decrease the size, underline... the freedom is yours.

When finished, print the slides that you need, or save all as jpeg files and then print each individually as needed
